SECTION 5

BIOGRAPHIES

Biographies of the personnel who will be assigned to the proposed program are presented in this section.

Security Clearances

<u>Name, Place and Date of Birth</u>	<u>Clearance, Agency, Date</u>
Harry William Sweeting, Portland, Oregon, 4/17/11	Confidential ACDA and DOD Top Secret in process
Robert Clarence Klein, Toledo, Ohio, 7/14/20	Secret AF held by CCMR-WPAFB 11/21/5 Q-WA42732 1/24/52 Now inactive
Victor E. Haynes, Watseka, Illinois, 12/23/28	Secret AF held by CCMR-WPAFB 8/22/60
Thomas Patrick Carney, Detroit, Michigan, 3/22/22	Secret AF held by CCMR-WPAFB 4/6/61
Clifford David Lamb, Grand, Michigan, 12/22/08	Secret AF held by CCMR-WPAFB 10/13/6

All other individuals named in this proposal have at least an ACDA-secret clearance.

ZELNY, CHARLES E.
Bendix Systems Division
Research Psychologist

University of Illinois, 1939, B.A. (Int'l. Relations)

University of Illinois, 1953, M.A. (Psychology)

US Air Force Human Resources Research Center
Psychological research

University of Illinois
Research in human motivation, learning, and morale

1954-1958 **US Army Electronic Proving Ground**
Chief of Human Factors Branch, Electronic Warfare Department;
directed human engineering and psychophysical studies of
advanced tactical systems and of operational methods

1958-1963 **Applied Psychology Corporation**
Program Director; directed studies in psychophysics, operator
task analysis, man/machine function allocation, large systems
manning, and human motivation

1963- **Bendix Systems Division**
Member of a senior study group under a contract from the Arms
Control and Disarmament Agency to investigate methods and pro-
cedures for inspecting the production of strategic delivery vehicles
under an arms control or disarmament agreement; held major
responsibility for developing basic designs of test and detailed
test plans providing for systematic, quantitative approach to
evaluating the relationship of inspection variables to inspection
effectiveness, for each of the following: on-site inspection of
"undeclared" industrial facilities suspected of clandestine
production of missile and aircraft components, and on-site
inspection of "declared" facilities suspected of producing
and assembling strategic delivery vehicle components in larger
quantities than meet an arms control agreement

Member: American Psychological Association, American Association for the
Advancement of Science, the Human Factors Society, and the Society for the
Psychological Study of Social Issues. Listed in American Men of Science

SWEETING, HARRY W.
Bendix Systems Division
Operations Analyst

United States Military Academy, 1933, B. S.
Command and General Staff College, 1945-1946
Armed Forces Staff College, 1949
Army War College, 1950-1951

1933-1963 US Army

Colonel; combat experience in both Armor and Infantry; served on staffs, faculty, and command covering functions of operations, planning, programming, research and development, and theoretical and practical application of military assistance

Combat Developments, Office Chief of Army Field Forces (1951-1953); developed concept for direction and control of R&D activities under the jurisdiction of OCAFF; designed and promoted original Combat Developments Objectives Guide (CDOG); designed and monitored field tests

Weapons Systems Evaluation Group (WSEG) (1955-1959); produced and assigned responsibility for, major components for two comprehensive WSEG studies; performed research and analysis of protracted warfare, development of counter-guerilla concepts, analysis of military assistance operations, development of new military assistance operational practices, and operational concepts for better utilization of indigenous forces

Project CLOUD GAP, Arms Control and Disarmament Agency (1962-1963); Project Leader of a team of military personnel and scientists engaged in planning and designing field tests for experimental disarmament inspection techniques and procedures; designed and planned first two field tests to be approved for implementation; personally developed and composed two manuals prescribing the detailed techniques and procedures to be tested; developed and produced a Standing Operating Procedure for Project CLOUD GAP operations

1964-

Bendix Systems Division
Arms Control Activities; actively engaged in current field test design and operations
