HP PENETRATION

At approximately 290300 EST Oct 75, AFCC relayed a report from Loring AFB, ME indicating that one unidentified helicopter, possibly two helicopters, had penetrated Loring AFB from Canadian territory with one helicopter landing briefly in proximity to a weapons storage area. Attempts to locate or identify the intruding helicopters by an Army National Guard helicopter were unsuccessful. Sightings of the unidentified helicopter(s) were limited to security guards. A similar incident with a single helicopter occurred during the early morning of 28 Oct 75. Permission has been granted by Canadian authorities to give pursuit into Canadian airspace if subsequent contact is effected by U.S. helicopters.

AT 200022Z ALL CONTACT WAS LOST.

IT IS OUR OPINION THAT THE UNKNOWN HELICOPTER HAS DEMONSTRATED A CLEAR INTENT IN THE WEAPONS STORAGE AREA, IS SMART AND A MOST CAPABLE AVIATOR.

LOCAL SECURITY HAS BEEN INCREASED. WE ANTICIPATE FURTHER INCIDENTS. ACCORDINGLY, WE WILL REQUEST THE CONTINUED PRESENCE OF AIR GUARD HELICOPTERS.

WE PLAN TO PURSUE INTO CANADA IF NECESSARY.

WE HAVE COORDINATED WITH MAINE STATE POLICE AND THE ROYAL CANADIAN MOUNTED POLICE AND HAVE BEEN ASSURED OF THE COMPLETE COOPERATION OF BOTH.

MEMORANDUM FOR RECORD

Subject: Army National Guard Helicopter Support for
Loring AFB

1. At 292035 EST Oct 75, LTC Dyer, Office of the Director of Operations, USAF, requested that the Army National Guard (NG) helicopter and crew currently located at Loring AFB, Maine, be made available to the Commander of the 42nd Bomb Wing until 300800 EST Oct 75. The NG helicopter would be employed to track and identify the unidentified helicopter that has violated the airspace in the vicinity of the weapons storage area at Loring AFB during their early morning hours of 28 and 29 Oct 75. LTC Dyer stated that international borders would not be crossed, and that apprehensions would not be attempted by personnel embarked in the NG helicopter. Any civil police on board the aircraft would participate only to the extent of communicating with appropriate police officials on the ground, with the latter singularly responsible for the apprehension of the suspect aircraft or crew.
2. This request was relayed to MG Sniffin, DA Director of Operations, DCSOPS, at 292100 EST. MG Sniffin indicated his intent to check with Army legal officials on the matter prior to making a decision.
3. The SAC Command Post was informed at 292050 EST of the request by LTC Dyer, and the fact that MG Sniffin was checking with Army legal authorities. Col Freeman, AF Operations Center, was also informed of the status.
4. Col Bailey, Mil Asst to the Special Asst to SECDEF/DEPSECDEF, has been advised of the helicopter request should DOD approval be required.
5. The State Department Canadian Desk Officer has been kept informed of the situation.
6. At 292230 EST MG Sniffin approved use of the helicopter with the following constraints:
 - a. Tracking and identification only.
 - b. Apprehension by U.S. personnel not authorized.
 - c. No crossing of international borders.

d. Only U.S. personnel, preferably military, but including FBI, FAA, and Border Patrol representatives if necessary, will be on board the NG helicopter.

7. MG Sniffin will initiate appropriate action to place the Army NG helicopter and crew on "Full Time Training Duty" (FTTD). In essence, the NG helicopter will be federalized.

8. OSD, through Col Bailey, has been advised of the approval and constraints in this situation and has stated OSD has no objections to the action.

9. At 292249 EST the DDO (NMCC) established a conference call with SAC (MG Burkhardt), AFOC, AOC, and Commander 42nd Bomb Wing, Loring AFB informing them of the approval to use the Army NG helicopter with the constraints listed in para 6 above. Commander 42nd Bomb Wing stated that there was no utility in using the helicopter if it couldn't cross the border. Air Force representative LTC Dyer was brought into the conference and stated that AF had no objection to the border crossing. At 292300 EST the DDO (NMCC) informed MG Sniffin of the border crossing issue.

10. At 292325 EST MG Sniffin informed the DDO (NMCC) that approval was granted for the NG helicopter to cross the border with the consent of Canadian authorities. The DDO (NMCC) assured MG Sniffin that the Canadians were cooperating and had already given consent to cross the border.

11. At 292334 EST another conference call was convened by the DDO (NMCC) with the above conferees, (para 9) informing them of the authority to cross the border if necessary. There were no further questions and all conferees were satisfied with the procedures established for the employment of the NG helicopter.

TIME REPORTED TO AFOC:

30/2327E Oct 1975

Wurtsmith AFB, MI

SAC (Lt Col Giordano) reports that an unidentified helicopter with no lights came up over the back gate of Wurtsmith and hovered over the Weapons Storage Area and then moved on.

RAPCON had it painted for a short period. A tanker at 2700 feet had visual and skin paint out over Lake Huron for about 20 miles heading SE. Tanker reports he thinks he saw a second skin paint. The tanker lost all contact about 35 miles SE of the base over the lake. Tanker is still flying trying to locate by means of telephonic search with FAA and RAPCON. Increased security initiated at Wurtsmith.

31/0030E Update: Lt Col Giordano (SAC Senior Controller) updates and corrects the above information as follows: An unidentified low flying aircraft came up over the back gate of Wurtsmith and was visually sighted in the vicinity of the motor pool. RAPCON showed several aircraft at the time, one near the WSA (there was no hovering as previously reported). A tanker was dispatched and had visual and skin paint out over Lake Huron of a low flying aircraft (with lights on) heading SE at approximately 150 knots. Tanker reports that the aircraft appeared to be joined by another aircraft (with its lights on also). Tanker reports that both aircraft then turned out their lights simultaneously, as if on signal. Tanker lost all contact approximately 35 NM SE of the base. Upon information that the Dept of Natural Resources sends out aircraft searching for hunters spotting deer, the Dept of Natural Resources was contacted; however, they maintain none of their aircraft were in the area at the time.

MEMORANDUM FOR RECORD

Subject: Unidentified Sightings

1. 0308 EST FONECON from NORAD Command Director: at 0253 EST Malmstrom AFB Montana received seven radar cuts on the height-finder radar at altitudes between 9,500' and 15,500'. Simultaneously, ground witnesses observed lights in the sky and the sounds of jet engines similar to jet fighters. Cross-tell with FAA revealed no jet aircraft within 100NM of the sightings. Radar tracked the objects over Lewistown, Montana at a speed of seven (7) knots. Two F-106 interceptors from the 24th NORAD Region were scrambled at 0254 EST and became airborne at 0257 EST. At the time of the initial voice report personnel at Malmstrom AFB and SAC sites K1, K3, L3 and L6 were reporting lights in the sky accompanied by jet engine noise.

2. 0344 EST FONECON, same source:

Objects could not be intercepted. Fighters had to maintain a minimum of 12,000' because of mountainous terrain. Sightings had turned west, increased speed to 150 knots. Two tracks were apparent on height-finder radars 10-12 NM apart. SAC site K3 reported sightings between 300' and 1,000' while site L-4 reported sightings 5NM NW of their position. Sightings disappeared from radar at position 4650N/10920W at a tracked speed of three (3) knots.

3. At 0440 EST, NMCC initiated contact with the NORAD Command Director who reported the following:

0405 EST: Malmstrom receiving intermittent tracks on both search and height-finder radars. SAC site C-1, 10NM SE of Stanford, Montana, reported visual sightings of unknown objects.

0420 EST: Personnel at 4 SAC sites reported observing intercepting F-106's arrive in area; sighted objects turned off their lights upon arrival of interceptors, and back on upon their departure.

0440 EST: SAC site C-1 still had a visual sighting on objects.

4. NORAD stated that Northern Lights will sometimes cause phenomena such as this on height-finder radars, but their check with weather services revealed no possibility of Northern Lights.

5. NMCC notified Washington FAA at 0445 EST of the incidents described above. They had not received any information prior to this time.

6. 0522 EST FONECON with NORAD Command Director: At 0405 EST SAC Site L-5 observed one object accelerate and climb rapidly to a point in altitude where it became indistinguishable from the stars. NORAD will carry this incident as a FADE remaining UNKNOWN at 0320 EST, since after that time only visual sightings occurred.
