

Dear [REDACTED]

9/3/03

How are you? It's been a while since we spoke. The last time we talked, you mentioned that you might be moving to Florida or Hawaii. I hope this letter reaches you. Enclosed please find a letter I received from Warren Botz (WWII P-40 Warhawk pilot). In the letter, he describes his encounter with an aircraft that he saw at WPAFB in 1978. It certainly sounds like the same 116ft. diameter craft you saw at MacDill in 1967. I have also included a photograph of the hangar that he saw it in (Wright Patterson Air Force Base hangar #4 bay "B" second from the left.). Let me know what you think. Please send me your new address and phone number.

I DON'T THINK THAT HANGAR IS BIG ENOUGH TO GET THE TAIL INSIDE. MAYBE THE DUAL PILOT VERSION APPROX 20' DOUBLE WHEELS ON ALL 3 LANDING GEAR, BUT SIMPLICITY DICTATES THAT THAT APPROX. 40' VERSION WHICH WAS IN THAT FLIGHT WHEN FIRST SPOTTED AND REPORTED, WOULD BE THE ONE KEPT, IF ANY.

9/18/03

I'VE MOVED TO TEXAS GULF COAST,

GREAT BOATING AND FISHING AND INTEND TO SPEND REST OF MY LIFE HERE. TIME WILL TELL. OF COURSE I WISH YOU SUCCESS IN YOUR RESEARCH EFFORTS BUT AS YOU KNOW I'M FAIRLY FIRMLY CONVINCED THAT SOME SORT OF NATIONAL SECURITY RULES, EVEN THOUGH PROBABLY OUTDATED, WILL CAUSE GREAT DIFFICULTY IN FINDING. I'M CONVINCED AT LEAST THE FILM IS STILL STORED SOMEWHERE, PROBABLY AT MAXWELL IN THEIR SUPER SECRET FILES. I HAVEN'T SEEN ANY TRACE OF YOUR ARTICLE OR IN POPULAR MECHANICS MAGAZINE SO HE MUST HAVE DROPPED THE BALL ON IT ALSO.

REGARDS [REDACTED]
