

20 APRIL 03 -  - TODAY AT A LOCAL
CASPER GROCERY STORE I SAW AND BRIEFLY LOOKED
THROUGH "WILSON'S" ARTICLE IN MAY ISSUE OF
'POPULAR MECHANICS' MAGAZINE. BECAUSE OF
HIS VISIT TO MY HOME IN NEW JERSEY, I KNOW
OF SOME OF HIS RESEARCH EFFORTS, - EVEN SO,
THERE REALLY WASN'T MUCH "NEVER BEFORE HEARD OF"
IN THE ARTICLE, - AMAZING AFTER ALL THESE
YEARS, NO ONE HAS YET BEEN ABLE TO FIND
ANYTHING ABOUT THE AIRCRAFT I KICKED THE
TIRES ON WHILE PERSONALLY WALKING AROUND
THEM - THE REAL "FLYING SAUCERS"! THAT
OFFICER IN CHARGE AT MACDILL CERTAINLY
TOLD IT EXACT WHEN HE SAID NO ONE WOULD
EVER SEE SUCH AIRCRAFT AGAIN UNTIL THEY
REAPPEARED AS UNITED STATES "SPACE CRAFT". AND -
OF COURSE, THAT RUNWAY AT SAVANNAH, GA, STILL
USED BY USAF COULD NOT BE HIDDEN AND CAN
STILL BE SEEN EVEN THOUGH NO RESEARCHER HAS
YET FOUND HOW AND WHY, IT WAS BUILT AFTER
GEN. PATTON CAPTURED THE ORIGINAL AS BEING BUILT
BY THE GERMANS. - CERTAINLY, NONE OF
THE AIRCRAFT WRITTEN ABOUT BY 'WILSON' IN HIS
MAY 03 ARTICLE CAN YET REALLY EQUAL THE
FLIGHT CAPABILITIES OF THOSE DISCS FIRST
(OVER)

REPORTED IN 1946-1947. THAT DIAMOND
SHAPED ONE IS AN INTERESTING DESIGN AND
OF COURSE IS BEING TESTED AS BOTH 'DROAK'
AND 'PILOTED' VERSIONS, PER 'WILSON' ARTICLE
ONE OF THE FUTURE BIGGEST STORIES
EVEN TO BE PUBLISHED HAS YET TO BE
AUTHENTICATED AND WRITTEN AND TOLD AS
FACT OF REALITY,

FOR WHATEVER REASONS, IT STILL SEEMS
TO ME TO BE IN SIMILAR CATEGORY AS "SKUNK
IN THE WOODPILE". PERHAPS SOMEDAY YOU
WILL SUCCEED IN FINDING AND GETTING IT
INTO WIDESPREAD MEDIA HEADLINES. HOPEFULLY
IT WON'T TAKE AS LONG AS REACHING MY
PRESENT AGE FOR YOU TO DO SO,

REGARDS,
