

Dear [REDACTED]

USE SINGLE LINE ONLY TO ILLUSTRATE
BETWEEN TOP AND BOTTOM OF DISC. REMEMBER - THOSE
CONTROL FLAPS EXCEEDINGLY 6/20/02
NARROW AT EDGE OF DISC (ALL USED, OF COURSE, FOR MANEUVERING)

I hope these are close.

Thank you

TRY TO ILLUSTRATE ~~ON~~
PILOT WINDOWS SAME AS ON
DOUGLAS PASSENGER PLANE

6/24 - CONGRATULATIONS - MUCH BETTER BUT
STILL WRONG -

TRY TO DUPLICATE SHAPE OF NOSE OF DOUGLAS
PASSENGER COCKPIT/CABIN - THIS FUSILAGE TOO HIGH
AND TOO WIDE FOR THIS ILLUSTRATION - SLOPE TOP
OF FUSILAGE DOWN SLIGHTLY AS IT BECOMES TAIL AND ON
INTO HIGH STABILIZER FIN - SLIGHTLY MORE CURVED

ON FRONT AND TOP OF
STABILIZER & SLIGHTLY
TALLER

DISC IS TOO ~~DEEP~~ ^{DEEP} IN THIS
ILLUSTRATION. LANDING GEAR
LONGER BETWEEN BOTTOM AND GROUND

~~DEEP~~ LARGER MAIN GEAR WHEELS
TRY 4 - POSITION NEARLY UNDER DOOR AND
FRONT OF AIR INTAKES
TRY 5 ON FRONT TRICYCLE GEAR

CABIN IS TOO HIGH

AND WIDE ON THIS ILLUSTRATION - WHEN/IF
YOU EVENTUALLY MAKE A MODEL - OF COURSE ALL
WILL BE STREAMLINED WITH NO DEMARKATION AS IN ILLUSTRATIONS

BOTH SLIGHTLY FORWARD
THAN THIS ILLUSTRATION

OVER

ENTIRE ~~PILOT~~ PILOT AND FUSILAGE AND
TAIL (HIGH VERT. FIN) AND TOP OF DISC,
INCLUDING EVEN AIR INTAKES ALL LOOKED
LIKE ONE PIECE. CONTROL FLAPS WERE
ONLY PARTS YOU COULD SEE MUCH DELINEATION. SAME

WITH BOTTOM. YOU COULD BARELY SEE SOME OF THEM
WHEN CLOSED AND BARELY SEE WHAT SEEMED TO APPEAR
LIKE A BOMB BAY DOOR (OR WHATEVER) UNDER IT, QUITE
LARGE AND LONG FOR ENTRY INTO DISC. IT WAS SEEMINGLY
SEALED CLOSED WHEN I SAW IT. SGT WITH ME SAID
AS FAR AS HE KNEW NO ONE HAD EVER BEEN ^{ALLOWED} INSIDE SINCE PARKED
THERE AND NO ATTEMPT MADE TO STRAIGHTEN ONE SAGGING
MAIN LANDING GEAR ON IT. FROM GROUND UP TO BOTTOM
OF SAUCER DISC NEAR CENTER APPEARED TO BE OVER 12'-15', MUCH
HIGHER AT EDGE. I WALKED NEARLY TO BOMB BAY BEFORE SGT ASKED
ME TO COME OUT FROM UNDER IT. I WAS RIGHT NEXT TO MAIN
WHEELS BUT NEVER GOT UP BY FORWARD GEAR OF THE BIG ONE.

TIRES DIDN'T APPEAR WORN BUT WERE ALL FLAT. NOR DID THE
METAL ^{THE DISCS} ~~THEY~~ WERE MADE OF APPEAR WEATHERED AT ALL, ON ANY OF THEM.

WITHOUT TOO MUCH PROBLEM IF DECIDED
(SEERS)
D.O.C. SAID THEY WERE ALL STILL FLYABLE.
NOR DID IT FEEL LIKE IT WAS
WHEN I DID RUN MY HAND & FINGERS OVER THE OTHERS (ON BOTTOM)

MUCH BETTER! 6/24/02

MacDILL AFB FLYING SAUCER

WINDOWS NEAR SAME SIZE AS IN COCKPIT

SLIGHTLY
SLOPE FRONT
OF STABILIZER

SLIGHTLY NARROWER
FRONT WINDOWS

NOT ROUND

MORE SLOPE

ALL
SLOPED
STREAMLINED
TOGETHER

CABIN
TOO HIGH
ON THIS
SIZE
ILLUSTRATION

CURVED INTAKES AS
ON HARrier

TALLER

NO MARKED
DELINEATION

STILL TOO
THICK

CABIN TOO HIGH

TOO WIDE IN THIS
ILLUSTRATION

BUT
CORRECT
INVERTED
SAUCERS
SHAPE

LONGER LANDING
GEAR

VISIBLY QUITE
BIGGER TIRES & WHEELS
ON BOTH MAIN
LANDING GEAR

CABIN IS TOO WIDE FOR
THIS SIZE ILLUSTRATION AND
YOU WOULD NOT SEE WHEN LOOKING DOWN AT
TAIL TOTALLY SLOPED INTO FUSILAGE AS PART OF IT

USAF

DOOR

LARGER RECTANGLE
WINDOWS

FRONT END
OF COCKPIT
MORE LIKE
DOUGLAS
AIRCRAFT

ONLY MAIN
LANDING

GEAR LOWERING
MECHANISM DIRECTLY
UNDER DOOR AREA AND
JUST FORWARD OF AIR INTAKES

FLAPS NEAR
SAME SIZE AS BOTH
REAR ACROSS

P.S. RAN OUT OF
ROOM TRYING TO PROVIDE
YOU SOME INFO.

REITERATING - REMEMBER, I TOLD YOU THE OIC BRIEFING ME

TOLD ME, IN ANSWER TO MY DIRECT QUESTION, THAT IT WOULDN'T TAKE
LONG TO GET THEM ALL READY TO FLY TO WHEREVER THEY WERE
TO BE STORED, IF THAT BECAME THE AIRFORCE DECISION. BECAUSE THEY
DIDN'T WANT THOSE FLAT TIRES AND SAGGING MAIN LANDING GEAR TO
SHOW UP IN THEIR RELEASE PHOTOS WAS ALSO WHY THEY SHOWED ME
AND GAVE ME MY CHOICE OF OFFICIAL USAF PHOTOGRAPHS. ALSO,

REITERATING - YOU CAN TAKE IT AS FACT OF REALITY THAT I PERSONALLY
ASKED THAT OFFICER A CONSIDERABLE NUMBER OF QUESTIONS DURING THOSE
BRIEFINGS I HAD WITH HIM, AND MORE THAN A FEW TIMES, HE FINISHED
HIS ANSWER WITH: "YOU CAN'T PRINT THAT." I SEEM TO BE THE ONLY
CIVILIAN IVE EVER YET HEARD OF WHO WAS PERSONALLY BRIEFED THE WAY
I WAS WAY BACK IN 1967! IT WAS DAMNED SURE EYE OPENING AND
INTERESTING. - FOR REAL!!
