

FLYING SAUCERS FOR REAL!
(list of 50 questions for [REDACTED])

- 1) J[REDACTED] I believe we touched on your background briefly, and you mentioned that you were a gunners-mate on a destroyer in the Pacific during WWII. What was it like to have enemy aircraft shooting at you? Did any Kamikaze pilots actually hit your ship? USS MILLER DD535 WAS UNDER ATTACK BY KAMIKAZE MY VERY FIRST MORNING ABOARD. A SLOW CHILL FEELING STARTED AT TOP OF MY HEAD AND WENT DOWN TO MY FEET AND I WENT ON FULL ALERT AND STAYED SO UNTIL END OF WAR. WITHIN DAYS A SAPEXPLoded IMMEDIATELY ABOVE MY BATTLESTATION. WING TIP HIT GUN I WAS LOADING AND CRASHED INTO OCEAN DIRECTLY ALONGSIDE USS MELVIN DD680. -USS HUGHES DD 610 WAS REPAIRED SHORTLY BEFORE I WENT ABOARD
- 2) How long were you in the Navy? 38 MONTHS
- 3) Do you recall the name of your ship? USS MILLER DD535
USS MELVIN DD680
USS HUGHES DD-610
- 4) What did you do for a living immediately after the war? STANDARD OIL REFINERY LABOR - CASPER, WY.
- 5) How did you meet [REDACTED], and eventually start [REDACTED] Publications? MET CASUALLY. BOTH IN SALES. AFTER A TIME, I WENT WITH HIM TO SEE WHAT HE WAS TALKING ABOUT - PUBLISHING AND ADVERTISING. WE BECAME PARTNERS THAT DAY
- 6) J[REDACTED] I don't think we ever discussed your wife/family/children? SON & DAUGHTER
- 7) How long were you publishing "ROUND ABOUT" before seeing the discs? 4-5 MONTHS
- 8) When you and [REDACTED] saw the discs for the first time from inside the vehicle, what was his initial reaction? SAME AS MINE - WE BOTH COMMENTED THAT WE MUST BE SEEING "FLYING SAUCERS" I DIDN'T PAY THAT MUCH ATTENTION UNTIL SGT WHO PROVIDED FILLER WENT ON FURLONG AND I ASKE CLUB MGR ABOUT MAYBE USING SOMETHING ABOUT THOSE AIRCRAFT
- 9) Did you and [REDACTED] ever sit down over a cup of coffee and discuss what both of you saw? WE HAD FULL TIME ENDEAVOR PUBLISHING CLUB CALENDAR AND SELLING ADVERTISING IN IT. ONLY CASUALLY AND THEN MOSTLY ABOUT SPACE TO USE IN MAGAZINE
- 10) Did [REDACTED] ever see the discs again after you did during the time you were briefed by the Lt. Colonel? DOUBTFUL. BY THEN WE KNEW THEY ALL WERE JUST USAF JET FLYING WINGS AND NO SUCH THING AS ALIEN. REALLY NOT MUCH EXTRA INTEREST ESPECIALLY AFTER USAF KILLED THE RELEASE

- 11) Did [REDACTED] ever discuss the discs with you after you were allowed to walk around them at the scrap-yard? *HE WAS DELIGHTED TO HEAR THAT THOSE DISCS WERE GOING TO BE TOLD ABOUT IN "HIS" CLUB CALENDAR MAGAZINE. HE WASN'T TOO SURPRISED WHEN HE COULDN'T PRINT IT*
- 12) [REDACTED] going over your original "FLYING SAUCERS FOR REAL!" article dated April 1982, you mentioned: "and rather than having to use Polaroid camera shots of discs dilapidated by outside storage, I was "invited" to the Officer in Charge Adjutant General's office to select official USAF photographs and be furnished "data" for the feature. Jack, what was the outside appearance of the jet discs when you saw them in late September of 1967? Did they appear to be in a "dilapidated" condition? Did the aircraft skins have a "weathered" or "oxidized" look to them? *ALL WERE EXCEEDINGLY BEAUTIFUL AIRCRAFT EXCEPT FOR FLAT TIRES AND "TILT" ON BIG ONE*
- 13) What would have prevented someone from taking a photo of the discs from the base perimeter road, behind the chain link fence where you and Harold first saw them? *PERIMETER ROAD WAS POSTED OFF LIMITS AND NO TRESPASSING. HOWEVER ANYONE GOING DOWN IT COULD HAVE PHOTOGRAPHED*
- 14) What was the quality of the official USAF photos you were shown in the General's private library? Were they all in focus? *ALL EXCEEDINGLY GOOD OFFICIAL AF PHOTOS*
- 15) Were any of the photos in color? *I DON'T REMEMBER - THINK ALL 176 SHOWED ME WERE STANDARD A.F. PHOTOS IN BLACK + WHITE*
- 16) Did any of the photos show the discs parked on a runway? *YES*
- 17) If you had to guess, how many photos were on file? (100, 500, 1000) *NO GUESS - THERE WERE ACTUALLY 1000'S*
- 18) Were they storing photos of other aircraft in this library? *YES - HE SHOWED ME OTHER TYPES FLYING WINGS INCLUDING TYPE WHICH CRASHED ROSWELL*
- 19) Was it your impression that the Air Force photographer that took the photo of you kicking the tires of the 40 foot disc was fully briefed about this program, or was he just on the base at the time? *NO ENLISTED MAN I MET WAS BRIEFED ABOUT PROGRAM. SULLIVAN DROVE ME TO WHERE THEY WERE PARKED. HE KNEW NOTHING EXCEPT THAT NO ONE HAD EVER BEEN ALLOWED TO THAT AREA OR GO ON THEM SINCE THEIR ARRIVAL AT BASE. HE MENTIONED HE THOUGHT MORE THAN 4 HAD COME THERE INITIALLY.*

- 20) Did the Lt Colonel ever give you any idea of how many were built?
Did he mention any squadrons that were formed? WHEN I ASKED HIM
HIS ANSWER WAS "SUFFICIENT NUMBERS" FOR ANY USE THROUGHOUT
USAF.
- 21) When you saw the flat tires on all of the discs, did the tires show any
signs of excessive "wear and tear". Were the tires "bald".
NO NO NO
- 22) When you noticed that the larger 116 foot diameter disc was leaning
to the port side, do you recall approximately what angle it was leaning? (10,
20, 30 degrees) MAYBE 5°
- 23) Do you remember seeing any hydraulic fluid leaks or dark grease
stains on the left landing gear strut, which might have explained why it was
tilting to the port side? NO
- 24) Regarding the air-intakes on the larger disc, were they big enough for
a human to crawl into? YES
- 25) Did the rear of the craft show any signs of black exhaust residue?
NO
- 26) What might be the purpose of having "windows" (if they indeed were
windows) along the sides of the large disc, if the crew inside had absolutely
no "look down" capability due to the body of the disc being directly below
them. THEY WERE WINDOWS, OBVIOUSLY TO LOOK OUT OF
WHENEVER NEEDED
- 27) Do you think that the larger 116 foot disc was actually a "cut and
paste" job, where they "fused" the body/fuselage of a DC-6 onto the disc
portion of the craft. ABSOLUTELY NOT
- 28) How would you rate the overall quality of workmanship for all of the
discs? FAVASTICALLY GOOD!

29) Do you recall seeing the official "USAF" insignia, and "star and bar" logo on the bottom surface of the discs? *YES*

30) Did the OIC ever mention anything other than maneuvering problems as being the reason they were discontinued? *HE SAID THEY HAD DESIGNED AND BUILT BETTER ~~WITHOUT~~ WITH LESS MANEUVERABILITY PROBLEMS*

31) Did he ever give you an idea how long the discs had already been discontinued before they were parked at MacDill in 1967? *EVIDENTALLY PARKED DURING SCRAPPING. ALL OTHERS SCRAPPED WHATEVER THEY WERE, ALL AT ONCE*

32) Is there any solid concrete evidence that Richard Miethe actually worked for AVRO? *I HAVE NONE. THERE WERE REPORTS OF THAT THROUGHOUT RESEARCH AND ELSEWHERE*

33) Did OIC ever mention anything about what type of fuel was used for the discs? *NO*

34) Was anything ever mentioned about what type of pilot's flew the discs? (test pilots, former military, civilian) *USAF PILOTS AFTER ORIGINAL TEST PILOTS WHEN FIRST BEING DEVELOPED*

35) Did the OIC ever mention what the "codename" for the discs were? *NO*

36) Did the OIC specifically mention any location where they were actually stationed as an active squadron? *NO*

37) When you walked around the four discs, was there any sign of offensive weapons capability for the craft? *NOT THAT I BECAME ACTUALLY AWARE OF EXCEPT WHAT LOOKED LIKE BOMB BAY ON BIG ONE*

38) Did the landing gear struts on the smaller craft have a fairly conventional look, or did they appear to be somewhat "robust".

BIG TIRES ON LARGEST DISC MAIN LANDING GEAR

- 39) What in your opinion was the purpose of the "exceedingly thick glass" for the front canopy window? Optical enhancement sight for bombing? Protection from enemy aircraft during aerial dog-fights? Aerial engagements seem unlikely since I don't remember you ever mentioning anything about the discs having "guns". Ref. question 37. *GEO. FILLER SAID IT WAS TO BRING VIEW CLOSER*
- 40) Did the OIC ever mention anything about what type of avionics were aboard the craft. *NO. ALL HE ANSWERED WHEN I ASKED ABOUT BEING USED FOR SPY PLANS OVER RUSSIA WAS "YES, BUT YOU CAN'T PRINT THAT,"*
- 41) Jack, when you walked around the discs, did you get a feel of how much each of them weighed (what was the approx. empty weight?) 8,000 pounds for the smaller disc? 120,000 pounds for the large 116 foot disc? (reason for multiple wheels on nose gear to distribute the weight). *I HAVE NO IDEA OR EVEN GUESS ABOUT WEIGHT.*
- 42) Was there ever any mention of what security squadron on base guarded these aircraft, or were the left abandoned at the scrap-yard? *MACDILL WAS "TACTICAL AIR COMMAND" FIGHTERS - PART OF SAC.*
- 43) Did the OIC ever mention that the discs had the capability to operate on un-improved runways? (grass strips) *NO*
- 44) Did the OIC ever mention anything about the ~~smaller~~ discs having "nuclear bombing capability"? *YES BUT ONLY BRIEFLY*
- 45) Did Lt. ~~XXXXXXXXXX~~ ever specifically state that the files on the jet discs you saw parked at MacDill in 1967 would be released to the public along with his "official USAF" book on the "Roswell incident"? *ABSOLUTELY NOT*
- 46) Was it your opinion that Lt. ~~XXXXXXXXXX~~ knew about "Project Silverbug" long before your FOIA request released it into the public domain? *ABSOLUTELY NOT. SAID HE FOUND IT AS ONE OF EISENHOWER'S PROJECTS WHILE LOOKING FOR DISCS I HAD REQUESTED. HE ALSO OBVIOUSLY SENT ME SILVERBUG AS COVER UP INSTEAD OF WHAT I WAS TRYING TO OBTAIN.*

- 47) Did the paint that was used to write "XPERIMENTAL" on the sides of the discs have the appearance of being chipped or cracked? *NO - NOT AT ALL -*
- 48) Approximately how tall was the grass growing around the four discs? Did you have to work your way to the 40 foot disc so that the Air force photographer could get a clear shot of you kicking the tires?
NO GRASS, ALL PARKED ON ASPHALT TAXIWAY WHEN I SAW THEM
- 49) Did the OIC ever mention anything about the Russians being able to easily "track" the discs flying into Soviet airspace due to the very high vertical stabilizers exhibiting poor "stealth" capability? It seems logical, that the discs would have already achieved space flight long before entering Soviet airspace, which would eliminate the need for any offensive or defensive weapons on-board. (makes sense.....who could touch them at that altitude). *NO. BUT IT WAS RELEASED BY USAF THAT RUSSIA HAD SIMILAR FLYING BEFORE WE DID*
- 50) Did the OIC ever mention anything about the discs making a "sonic boom", since it was obvious they could exceed Mach 1. *YES BUT HE DIDN'T TALK MUCH ABOUT THAT,*

4/21/05

 I must REITERATE THAT I HAVE PREVIOUSLY TOLD YOU ALL THIS SPECIFICALLY AND IT STILL SEEMS TO ME YOU ARE LETTING YOUR PRECONCEIVED IDEAS STILL INTERFERE BECAUSE OF YOUR INTENSE INTEREST IN THE SUBJECT. BY NOW YOU SHOULD KNOW FOR CERTAIN THAT I HAVE TOLD YOU THE SAME INFORMATION TIME AFTER TIME, NEVER CHANGING ANY OF IT. AND - THAT IF I DON'T KNOW I SAY SO. I'VE STATED MANY TIMES THAT THE OIC DIDN'T TELL ME LOTS AND THAT HE WOULD HAVE ALLOWS THAT KIND OF INFORMATION IN THE ARTICLE THEY GAVE ME TO PRINT. I NEVER GOT A GLIMPSE OF WHAT THAT ARTICLE SAID AS HE PICKED IT ALL UP WHEN THEY CANCELLED REGARD
