

UFO SIGHTING SUMMARY FORM - AIRCRAFT - Case No.:

(A) Primary Witness: _____ P, CP, _____
 (B) Second Witness: _____ P, CP, _____
 (C) Third Witness: _____ P, CP, _____
 (D) Fourth Witness: _____ P, CP, _____
 (E) Other Witnesses & circumstances: _____

DATE: 12-28-91
 TIME: 2340 Z
 No. _____ witnesses
 ALTITUDE: (ft) _____
 WEATHER: clear
 IFR VFR

Aircraft/Flight Details

Spatial: [Lat. 43° 08' "N S:] [Long. 81° 10' " E W]

1. Flight origin: Toronto (east) ATC
 destination: Amsterdam

1.1 Sighting location (initial): 6 nmi off
wing of A/C SW, LONDON, ONTARIO

2. A/C (original) bearing: _____

2.1 Chg? yes no unsure To: _____

3. A/C altitude (initial): _____

3.1 Chg? yes no unsure How? _____

4. A/C attitude: _____

5. Other A/C involved? yes no unsure

5.1 Details: _____

Temporal:

7. IAS: _____ mph kts

9. TAS: _____ mph kts

10. GMT: 10040 hours 2100 Z

11. Local Time: _____ zone _____

Type of Aircraft:

17. Jet Prop: Rocket Other: _____

18. Comm'l. Airline: KLM

18.1 Flt. No.: 612

18.2 A/C Type: _____

19. Window UFO seen through by (A): _____

(B & others) _____

19.1 Visibility of windows: _____

20. Radar contact? yes no unsure

20.1 Details: A/C Radar & Toronto

Ground ATC (15 min) nr. LONDON

Eye Witness Details

24. Age: (A) _____ (B) _____ (C) _____ (D) _____

25. Flt. Hrs. (A) _____ (B) _____ (C) _____

27. Prev. UFO exper. ? (A) _____ (B) _____
 (C) _____ (D) _____

28. Was formal report filed on sighting? yes no

28.1 If no why not? _____

28.2 Submitted to whom? _____

28.3 Details: _____

Misc. facts (cont.): _____

UFO Characteristics

Spatial/Temporal:

32. Bearing of travel (magnetic): _____

32.1 Changes: _____

33. Velocity _____ mph kts

33.1 How determined? _____

33.2 Accel. details: _____

34. Apparent angular size: _____

34.1 How determined? _____

12. Sighting Duration: _____ ()

35. Luminosity: _____

36. Shape: _____

37. Details/Markings: _____

38. Sketch made? yes no Location: _____

38.1 Photo(s) available? yes no Loc. _____

39. Number of UFOs: N=3

40. Atmospheric traces? _____

41. UFO: passive friendly hostile other: _____

41.1 Details: _____

42. UFO disappearance facts: _____

43. UFO altitude: _____

Other misc. facts: excellent report format

6 nmi from A/C

45. E-M effects? _____

Case Analysis Results

Analysis by: _____

Date/Conclusions: Moved behind A/C

then leads down off scope.

The main witness was the pilot of KLM 612, eastbound for Amsterdam. Skies were reported as clear. The description of the sighting is as follows:

"Three objects observed on their airborne avoidance collision system radar. Objects were echelon right, 6 NM off KLM's wing. Objects went line astern then leader object went rapidly off the scope. Toronto controllers reported seeing 2 prime targets stationary for approximately 15 minutes around London. One object then came back. Data reduction was done and proved there were objects there. That reduction was done around 2100Z. This was not reported to us until new Toronto controllers reported 4 objects 7 to 8 NW southwest of London VOR at position 4308N 08110W."
