REPORT ON UNIDENTIFIED FLYING OBJECT(S)

This form includes questions asked by the United States Air Force and by other Armed Forces' investigating agencies, and additional questions to which answers are needed for full evaluation by NICAP.

After all the information has been fully studied, the conclusion of our Evaluation Panel will be published by NICAP in its regularly issued magazine or in another publication. Please try to answer as many questions as possible. Should you need additional room, please use another sheet of paper. Please print or typewrite. Your assistance is of great value and is genuinely appreciated. Thank you.

Time Zone P. S. T.2. Date of Observation JUNE 30, 19673. Locality of Observation OWN BACK YARD.4. How long did you see the object? Hours 30 Minutes Seconds5. Please describe weather conditions and the type of sky; i.e., bright daylight nighttime, dusk, etc.6. Position of the Sun or Moon in relation to the object and to you. MOON NOT VISIBLE.7. If seen at night, twilight, or dawn, were the stars or moon visible? YES STARS VISIBLE.8. Were there more than one object? NO If so, please tell how many, and draw a sketch of what you saw, indicating direction of movement, if any. (SKETCH ON TYPING PAPER.)9. Please describe the object(s) in detail. For instance, did it (they) appear solid, or only as a source of light; was it revolving, etc? Please use additional sheets of paper, if necessary. (ANSWER ON TYPING PAPER.)10. Was the object(s) brighter than the background of the sky? YES.11. If so, compare the brightness with the Sun, Moon, headlights, etc. (SEEN AT CLOSE RANGE.)12. Did the object(s) — (ANSWER ON TYPING PAPER.) (Please elaborate, if you can give details.)

- a. Appear to stand still at any time? YES
- b. Suddenly speed up and rush away at any time?
- c. Break up into parts or explode?
- d. Give off smoke? YES
- e. Leave any visible trail?
- f. Drop anything?
- g. Change brightness?
- h. Change shape?
- i. Change color? YES.

13. Did the object(s) at any time pass in front of, or behind of, anything? If so, please elaborate giving distance, size, etc, if possible. NO.14. Was there any wind? NO. If so, please give direction and speed.15. Did you observe the object(s) through an optical instrument or other aid, windshield, windowpane, storm window, screening, etc? YES. What? 250 POWER TELESCOPE + 750 POWER FIELD GLASSES.16. Did the object(s) have any sound? NO. What kind? How loud?

17. Please tell if the object(s) was (were) —

- a. Fuzzy or blurred.
- b. Like a bright star.
- c. Sharply outlined.

18. Was the object —

- ☒ a. Self-luminous?
b. Dull finish?
c. Reflecting?
d. Transparent?

19. Did the object(s) rise or fall while in motion? **NO**

20. Tell the apparent size of the object(s) when compared with the following held at arm's length:

- | | | |
|------------|------------------|--|
| a. Pinhead | d. Nickel | ☒ g. Orange |
| b. Pea | e. Half dollar | h. Grapefruit |
| c. Dime | f. Silver dollar | i. Larger |

Or, if easier, give apparent size in inches on a ruler held at arm's length.

21. How did you happen to notice the object(s)? **(ANSWERS ON TYPING PAPER.)**

22. Where were you and what were you doing at the time?

23. How did the object(s) disappear from view?

24. Compare the speed of the object(s) with a piston or jet aircraft at the same apparent altitude. **150-250 M.P.H. (VERY SLOW.)**

25. Were there any conventional aircraft in the location at the time or immediately afterwards? If so, please elaborate. **NO**

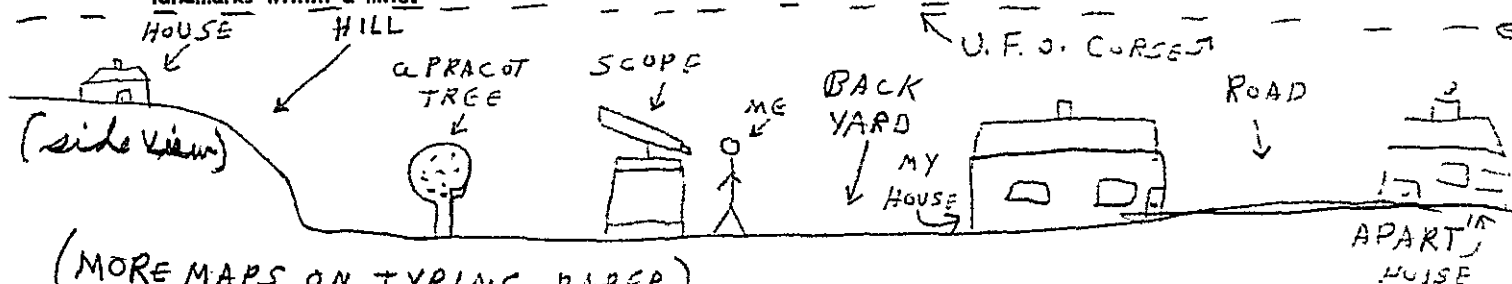

26. Please estimate the distance of the object(s). **150 TO 200 FEET.**

27. What was the elevation of the object(s) in the sky? Please mark on this hemisphere sketch:

28. Names and addresses of other witnesses, if any. **4 OTHERS. DO NOT KNOW NAMES OR ADDRESSES.**

29. Please draw a map of the locality of the observation showing North; your position; the direction from which the object(s) appeared and disappeared from view; the direction of its course over the area; roads, towns, villages, railroads, and other landmarks within a mile.

30. Is there an airport, military, governmental, or research installation in the area? **YES. AN AIRPORT.**

31. Have you seen other objects of an unidentified nature? If so, please describe these observations, using a separate sheet of paper. **YES.**

32. Please enclose photographs, motion pictures, news clippings, notes of radio or television programs (include time, station and date, if possible) regarding this or similar observations, or any other background material. We will return the material to you. **NONE.**

33. Were you interrogated by Air Force investigators? By any other federal, state, county, or local officials? If so, please state the name and rank or title of the agent, his office, and details as to where and when the questioning took place. **NO.**

Were you asked or told not to reveal or discuss the incident? If so, were any reasons or official orders mentioned? Please elaborate carefully. **NO.**

34. We should like permission to quote your name in connection with this report. This action will encourage other responsible citizens to report similar observations to NICAP. However, if you prefer, we will keep your name confidential. Please note your choice by checking the proper statement below. In any case, please fill in all parts of the form, for our own confidential files. Thank you for your cooperation.

You may use my name. ☒

Please keep my name confidential. ☐

Signature: **Darel Wayne Smith**

8.

JUL 11 1967

9. It was a craft with revolving red, blue, and yellow lights on it. It looked like an egg with its ends elongated and flattened out. Each time it would stop, the lights would go on + reverse. Each time it would start to move, the lights would go out. Each time it would start to move, a red like beam of light would come out of its sides.

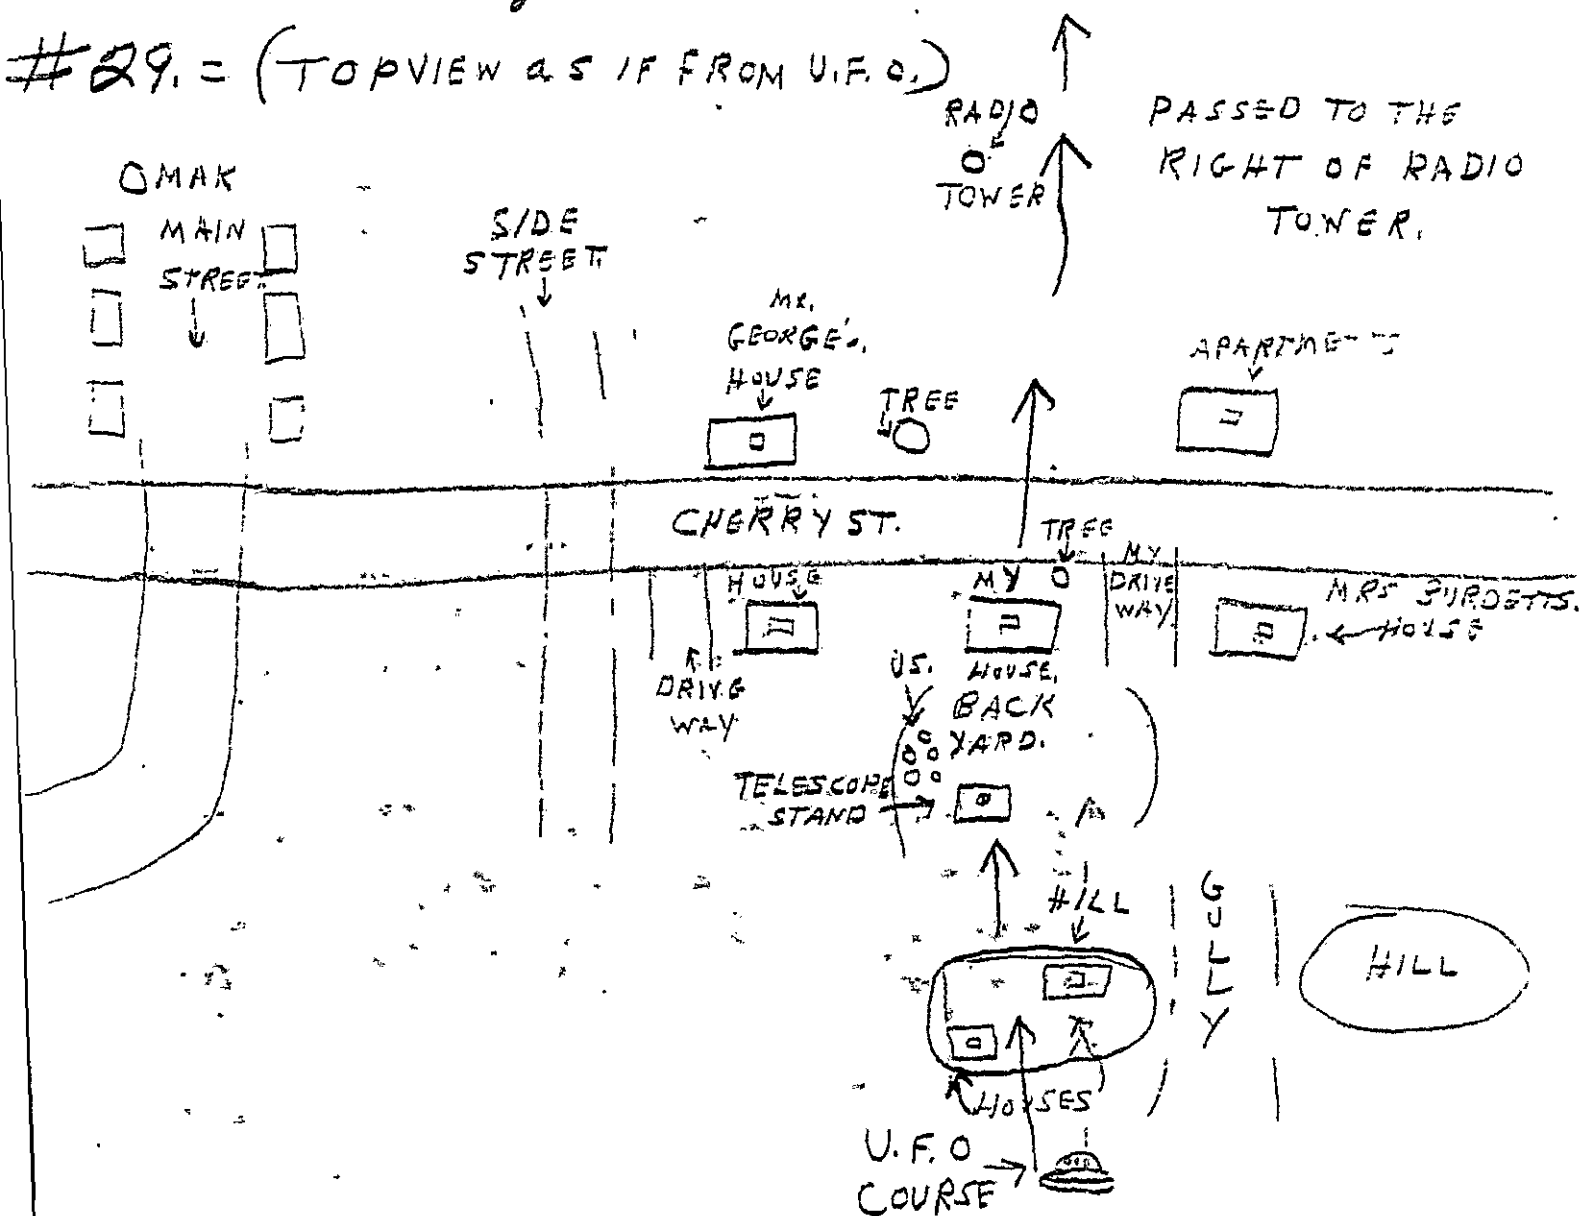

- # 12. (A) = It would stop for 2 or 3 minutes, and then it would move forward again.
- (D) = It gave off either a red light at each end or a red flame of some kind each time it would start to move.
- (I) = The white light would dim when it was stopped, and become bright when it would move again.

21. I was sitting in my living room watching T.V., when some kids I had met at school drove up. I worked at school from Feb 1st to May 30th as a janitor assistant. I don't know their names or where they live. There were 4 boys + myself. One of them saw that I had a telescope and asked me to point out the stars to them. We did go into my back yard.

#22.

#23. It kept on going due south until we could not see it anymore.

#29. = (TOP VIEW AS IF FROM U.F.O.)

I am writing to you in regards to the U.F.O. Problem. I have followed this Phenomenon from time to time ever since I saw my first U.F.O. at the age of 14. I was out playing baseball one night when the sky lighted up as if the sun was still out. at this time it was light enough to just about still see the ball, so we had just decided to quit. A large cigar shaped craft came over at about 150 feet I would say. It was of a bluish white nature. It went over so fast that I could not see much details other than its shape & color. Just behind it however, came 4 oval shaped red objects. I heard a few days later that a B-47 had seen the same thing at 47,000 feet. The pilot said he could not get close enough to the large craft to identify it, but that he would stake his life that the red things were rockets of some kind. Since then I have seen a number of other strange craft in the sky at night. I have a 250 power Telescope and a pair of 750 power field glasses. I am out for 3 or 4 hrs. each clear night watching the stars. I am, at this writing unemployed, so I have lots of time to watch the sky at night.

These things are not of this world. I say also -
that the public should be told the facts about
the U. F. O. instead of being made fools of by the
U. S. A. F. I use to think that the air force was not
holding back information on the U. F. O's, but after seeing
some of the remarks they come up with in light of all
standing information, I know now they are! And Dr.
J. Allen Hynek and some of his remarks are for the
birds. I have here at home your book "Flying Saucers
from Outer Space", but have been unable to get
hold of any of your other books. I tried at the
library to get "Flying Saucers are Real" for months,
but they could not find a copy of it so I gave up on it.
I was wondering if you could or would send me any
information on the U. F. O.? I once saw a book called
"World Roundup of U. F. O. Sighting", or words to that
effect. I was wondering if you could send me a list
of all U. F. O. sightings in general? I hope I will hear
from you soon.

Yours Truly;

Dear Miss. Sinkler;

JUL 11 1967

I just recieved your U.F.O. forms and have just got through filling one of them out. The U.F.O. I wrote you about, the one later seen by the B-47, happened so long ago that I can't remember too much about it. The form I filled out deals with a new sighting. The below information is in answer to the question 31 on the form. I will try to give all of the information I can remember. The U.F.O.'s I have seen are:

SIGHTING #1: (*later seen by B-47*)

On a night in early November or December of 1948 or '49; (date not known), I was playing baseball with some friends of mine at the old Catholic School Grounds. We had a lot of fun until it got too dark to see the ball. At just the same time we finally called it quites, the entire school grounds was lighted up as if the sun had come up again. Passing overhead was a large cigar shaped craft of some kind, and right behind it came 3 or 4 short red objects. The cigar shaped craft could not have been 75 or 80 feet off the ground because it scared the heck out of all of us. All I could do was stand there and look at the thing. I think I was too scared to move even. The large craft had a bluish white glow to it and the red things were sort of a brick red in color. It made no sound that I can recall. If I recall correctly, there was low white clouds that night because it seemed to stand out against the clouds like a sore thumb. I would say that it's length was about 150 to 200 feet and was, I would guess, about the size of a C-133 at the range of 10 yards. It was going north to south at the time I saw it.

SIGHTING #2.

On the night of July 18, 1954, I was out in my back yard looking up at the north star at about 11:15, when I saw, going through the big dipper, a formation of 4 large round objects. I thought it strange because I don't recall seeing any stars in the center of the big dipper at the time. Three of them were blue white in color, while the fourth was blood red in color. I at that time did not have any thing other than my eyes to see them with. I first saw them as they entered the center of the big dipper and stopped. When they stopped, I then really became interested in them, because I did not know of any aircraft, other than a 'copter that could stop in mid air. I watched them for about 10 minutes. As I watched, the one that was blood red in color, changed to a blue white at the same time the other 3 changed to a redish orange. They made no sound that I could hear and stayed in one place, the middle of the big dipper, for about 10 minutes. Finally, 3 of them took off at a high rate of speed to the north, while the other one stayed where it was. I turned my gaze on the last one and while I watched it, it changed color again. This time to a green color. This green light then began to throb on and off. It did this for about 15 minutes, then it left and did not come back. They were going on a south to north direction.

(Continued on back page.)

SIGHTING #3.

At the time of this sighting I was working for Biles Coleman Lumber Company. On a night in October, either the 15 or 16th., at about 10:00 o'clock at night, I was just taking my first break and had just waked out of the factory, when I saw, coming from a east to west heading, four large oval shaped craft of a redish orange coloring. They made no sound as they came low over Biles Coleman. It was a clear night and there was no overcast of any kind. I do not know if anyone else saw them or not because I, myself, only saw them for about a minute or so. They had no lights of any kind other than that redish orange color. They were going at a high rate of speed, I would say, 250 to 300 m.p.h. When I told my friends about this I got the Are-You-Out-Of-Your-Mind reaction, so I kept quiet about any others I have seen until now.

The form I filled out pretains to the new sighting made on June 30, 1967. I can't give any more information about this sighting than is on the form. While I am looking for work, I will keep the other form handy, in case I see any more. I have given all information that I can remember and hope this little bit I have given you will help you to finally fine out what these things are. I can assure you that I will be out every night that is clear enough, keeping watch for more of them. I can also say with all honesty that I am in no way a crackpot of any kind. I only hope that responsible people will, if they sight any U.F.O'S., report them to you, at N.I.C.A.P. If we don't, and these things mean us harm, we then may not live long enough to regret reporting them.

(not.)

Yours Truly;
