

Okinawa

(Continued from Page One)

The object, which Shifflet said was "several times the magnitude of the brightest planet" was visible for approximately one minute and was seen also by Flight 985 of KLM Royal Dutch Airlines crew members.

At about the same time that the TWA sighting was made, two photos were allegedly taken by a Correspondence Course senior high school student at Okinawa.

Masahiro Asanuma, 21, said that he took the photos while at Young Boys Field Center in the center of Okinawa in the company of about 40 classmates, who also saw the object. The Japanese newspapers *Yomiuri Shinbun* and *Mainichi Shinbun* reported that the object made its appearance at 8:30 p.m. (Japanese time) in the form of a yellowish white belt of light. When the students spotted it they thought it was an airplane on fire, then someone yelled that it was a "flying saucer". Asanuma heard the commotion, aimed his camera (Cannon 50 mm Standard, Film SS) and clicked the shutter twice. Then he left the lens open for 5 or 6 seconds. The object finally disappeared into the cloud about two minutes later.

When the film was developed the first two shots showed nothing but the third shot showed an elongated, crescent-shaped blob.

This report was forwarded by Jun'ichi Takanashi, APRO's Representative for Japan. He has learned that other photos were taken on Okinawa and Japan (Fukushima Ken and Morioka City, etc.) which are similar to those taken by Asanuma. Mr. Takanashi is attempting to obtain negatives and any further information gained will be published at a later date.

The 1962 Occupants Case

The *National Enquirer* recently carried the account of [redacted] and Mrs. [redacted] of Grand Forks, North Dakota, who had an unusual experience while vacationing at their cabin on Lake Movil in northern Minnesota. Mrs. [redacted] contacted [redacted] and asked her cooperation in doing an artistic rendering of what they had seen. Mrs. [redacted] and her mother were most cooperative, and the drawing above by Staff Artist [redacted] represents what they observed.

The exact date cannot be recalled but on an August night in 1962 when Mrs. [redacted] was doing her daughter

[redacted]'s hair. [redacted]'s younger brother, Roger, was in bed. Suddenly [redacted] became aware of an odd object outside, and both of the women stared out the window at a red glowing object which was hovering over the boat dock 50 feet from the cabin. The light from the object made the green painted boat dock appear brownish in color and the water a greenish-black. The side of the object toward the cabin had three windows which were lit up by a yellowish light and in two of the windows the women could see the silhouettes of three man-shaped beings. The object was hovering over the near end of the dock and appeared to be 8 feet high and 35 feet wide.

Both of the women felt that the "men" were watching them and after a few minutes of observation, Mrs. [redacted] switched off the lights in the cabin, whereupon the lights on the object immediately went out. Mrs. [redacted] then had an irresistible impulse to approach the object and threw open the door and started running down to the boat dock while her daughter, almost hysterical, screamed for her to come back. When Mrs. [redacted] was halfway to the dock the object lifted slowly in the air, then moved off at an angle and was gone as suddenly as it had arrived.

The object, when first seen, seemed to appear out of nowhere. When it extinguished its lights when Mrs. [redacted] turned off the cabin's lights, it was a dark blob over the dock so it may be assumed that the object could have been there for some time prior to Mrs. [redacted]'s first glimpse of it, and it was called to her attention by the lights being turned on.

Mrs. [redacted] also described an inci-

dent which had taken place three weeks prior to the "occupant" sighting. She, her mother and father (Mr. and Mrs. [redacted]) and brothers [redacted] and [redacted] and the family dog Zipper were driving about 125 miles from their home to the cabin. When they were about 12 miles out of the town of Bagley the dog began to growl and [redacted] spotted a large, green luminous object which appeared to be approaching them on a parallel course.

Mr. A [redacted] said the object wasn't going very fast and he slowed the car and the object passed them. It was approximately 70 away from their car and appeared to be about the height of a two-story building. It appeared as a long oval, yellowish-green in color and with a haze or fog around it.

After the object passed the [redacted] car [redacted] and [redacted] watched it out of the rear window until it had passed out of sight. Duane said that they could see the thing hovering over a bare patch of land for a while, then it moved over a wooded area, made a half-circular maneuver and disappeared into the woods. They continued to watch but the object was not seen again.

Inquiries indicate that the [redacted] are highly respected in their city and by friends and business acquaintances.

The above two cases are examples of the types of cases which may be lying dormant due to the disinterest and ridicule of the past. Since the June 24th article about APRO in the *New York Times* APRO has received several very interesting cases which are currently under investigation.
