To answer your questions, I have never gained access to the so-called Blue Room at Wright Patterson, so I have no idea what is in it. I have no idea of who controls the flow of need-to-know because, frankly, I was told in such an emphatic way that it was none of my business that I've never tried to make it my business since.

I wish you luck on your investigation. I'm one of those people who believe that with some two billion planets scattered around our universe, there has to be a couple of more that can support life on it.

Sincerely,
