hi, [REDACTED]

Terrific. I'm here to help.

Also, I should have told you before you finished the film that I grew up in Victorville, CA near the [REDACTED] and their children, [REDACTED] (who was my age), and [REDACTED]. [REDACTED] may be better known by you as the [REDACTED] at George AFB who facilitated the F104's (I think...maybe they were F105's) during the October 7, 1965 California event. He was a wonderful man. His full name was [REDACTED].

I was only seven during my ET experience on the nights of June 12, 13, and 14 of 1961, and didn't know I should shut up about such things. I told everybody about it, wrote about it and drew pictures of them in my diary, and was ridiculed and teased most of my life. To this day I can't talk about it, even though it happened over fifty years ago. It was the only ET experience I ever had, but it taught me we're never alone, and there are kind others close to us.

Anyway, sometime in 1966, our family was invited to dinner at the Clark home, and at one point, [REDACTED] took me aside and said, "I believe you." I was 11 or 12 by that time, and I cried. He was the first adult to ever seriously want to hear what had happened to me, and he didn't laugh. It meant the world to me. I was still too young to know why he would believe me, so I didn't ask how he knew they were real. I do wish I'd asked him more about it before he died. I think, having a shared experience, he may have told me. Prior to his death (in 1988, I believe), he wrote a letter to his wife, [REDACTED], and when she died, sometime in the mid-1990's, it was passed on to his son, [REDACTED], who now lives about two miles from us. [REDACTED] has agreed to show us this letter, written in his father's own hand. Let me know if you would like an introduction. I think [REDACTED] was also kept in the dark about the ET's, only learning the truth after his mother's death, when he found the letter his father had addressed to her, saying he couldn't die without sharing his experience with her.

Also, both of my Uncles lived in Mar Vista, CA during the event that came to be known as the Battle of Los Angeles. They are in their 90's now, but have full recall of hearing the concussions of the firing onto it, and swear it was a metal object by the sound of those hits. They stayed up and watched it for several hours. They went out the next day into the artichoke fields near Douglas Aircraft in Santa Monica, and collected the spent shells from the anti-aircraft guns that fired on the red, glowing object. My Uncle Blair said he "still has a few of them somewhere."

My Grandmother, [REDACTED] is now 100, but still of sound mind. She was a friend and contemporary of Amelia Earhart. Amelia liked to work with Veda when she came to California, because they could both talk about engines. Veda worked many years at Douglas Aircraft, and later, McDonnell-Douglas. I've asked her about reverse-engineering, since she handled parts, but she said, "Oh, I can't talk about those things. It's a matter of National Security, you know."

Anyway, I'll contact [REDACTED]s and [REDACTED] directly, once my family leaves after the holiday.

Dear Krirstin,

Thank you so much for your offer to help with Sundance.

I am copying [REDACTED]

Starting probably mid-end of January [REDACTED] will be doing publicity for us and [REDACTED] has made all the arrangements for a reception we will be having at Sundance.

It will be at [REDACTED] on Wednesday January 23 from 5 -7pm.

[REDACTED] will be there running the show.

Steve asked me to ask you to connect with [REDACTED] and probably the best thing would be if you can work with him to network people to the [REDACTED] reception where Steve will be and where we will be showing the trailer. The film has not been completed yet and will still probably be going thru some last revisions in February. We are awaiting genetic results on the little 6 " being to be included and other finishing touches.

Thanks so much for the help. I'll let you and [REDACTED] take it from here since I won't be there.

OK. Now is where I can really help you. I'm still too poor to donate much, but I've been saving up and will be at Sundance to help in promotion. I can do a lot to get publicity for you here in Utah. I know lots of people in the film industry here. I didn't realize it would be completed this soon, or I could have facilitated it in several other festivals. Even though the date for admissions has past, I have an "in" at one where I have worked as a volunteer for over ten years, and may be able to get a screening there for you.

I don't know if Dr. Greer remembers me, but here is my IMDb link, so you know I'm legit. ;)

[REDACTED]

[REDACTED]

Hope to be of use soon!
