

From:

1. [REDACTED] is part of a group of journalists at the L.A. Times (where he was the [REDACTED] Editor) that won a Pulitzer Prize. He is the highest-level media professional I know of who claims to have been aboard an ET vehicle (he's been on board twice in three years).

3. [REDACTED] is the designated "public spokesperson" for the Verdants until then; this is announced in his new book that we are publishing soon, to be called HUMANITY ON THE BRINK. His first book (15,000 sales) from a prestigious publisher, announced the basic Verdant agenda in 1998.

That's the condensed version; let us know if there is anything else we can help with in this connection.
