

Subj: **WITNESS REPORT**

Date: 07/17/2000 3:40:55 PM Eastern Daylight Time

From: [REDACTED]

To: DrSGreer

☒ Obtain full name, address, phone numbers, email and other data and record same:

The original source to the following person was [REDACTED] of North Carolina, who emailed CSETI in April, '98.

[REDACTED]

[REDACTED]

[REDACTED] (pen name) AKA [REDACTED]

[REDACTED]

2. Obtain brief educational and employment history relevant to the testimony (ie, government, military, intel., corporate)

Claimed abductee and author of 5 books on UFO abductions and the Bible. She was contacted by alleged FBI agent who gave her information about an alleged govt. conspiracy and ET intervention when she appeared on Art Bell in 1998.

While speaking to her, it became apparent that her husband may be a legitimate witness with a high security clearance.

3. Record the details in summary form of the witness' testimony, providing salient information on date, location, position and involvement at the time of the UFO/ET event or project

[REDACTED] husband, [REDACTED], has a Top Secret clearance, has witnessed ET-related technology, and is the developer of a workable over unity free energy device, specifically a Magnetic Resonance Amplifier. He has encountered serious obstruction preventing his patenting or development of the device. He may be willing to talk to us, but he is very scared and fears loss of his military pension. She will speak to him about communicating with us.

Email sent to her was returned undeliverable. I shall send hard copy of June 12 media release and letter for witnesses. My cover letter to them seeks to assure her husband that our project is legit and that we shall honor his request for confidentiality to the utmost. She provided the mailing address of the alleged FBI agent:

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

4. Ascertain the witness' degree of cooperation : Is he / she willing to be interviewed under full identity? Under a disguise (we want to discourage this except in rare cases) ?

Positive, but skeptical about whether our project "could pull it off."

5. Ask if he/she has corroborating witnesses to the event or project or corroborating documents and other materials.

Her husband's testimony.

6. Always ask if the witness has other evidence, networks, or contacts to other witnesses which could be useful to the project (they may not offer this and so this should always be asked).

7. Write your own assessment of the value of the witness' testimony and credibility, and HOW the witness comes across (articulate, etc) .
