

Interview Col. Philip Corso
July 5th Roswell, New Mexico
By Paola Harris

*1-12-50
Corso*

Harris: I hear that you were part of the Allied Intelligence forces that put Rome back on its feet in 1945.

Corso: I was talking to God and I asked him "did you put me here as a joke? This is your eternal city not mine. I'm an American. since you put me here, I'll show you, I'll show everybody. I was talking to God like I was a crazy man. I'll show you . I'll put this city back on it's feet. I'll give it back to you better than it ever was. .Then I went to work. I called the three chiefs of the black-market, commodities, jewelry and money reorganized the Obra and they worked for me. Santoro, the Prefect. All the Doormen were working for me.

Harris: I've heard some of these fantastic stories . The question I have is " How come it's you? " Why you?

Corso: I used to say Why me? How come?What am I doing here? It's uncanny. My whole life is uncanny. In Rome I didn't lose a man. None of my CIC agents got killed. That's impossible. It shouldn't have happened. I'd used to look at the orders I'd write about the communist arms. Nothing ever went wrong. It's not possible It's not right.I used to walk down Via Sicila at two, three o'clock in the morning and I'd walk down the street like I was in another world. Nobody around .No noise. Nothing. Uncanny! Chief of Police Luigi Ferrari told me " you've been here before". Ya, you've been here before. So told General Trudeau " How'd I get these big positions,White house, Big Commands . I was drafted in the Army. I'm not even a career soldier. So the General said that doesn't matter how you got the job. We won't try to figure that out. What's important is what you do after you get the job.
All my life, even now, I've always felt like somebody's been manipulating me. Who it is? I don't know.

Harris: Do you honestly realize what this means. All those people Robert Dean ,Stanton Friedman, Linda moulton Howe have been trying and trying to bring forth the truth. This book is the key to unlock the mystery.

Corso: My background, my positions, my Integrity. They can't touch that. My experiences fit like a glove with the positions I was in.It's uncanny . Something's been guiding me. I don't know what .I can't figure that out.

Harris: What gave you the courage to write the book apart from the fact that you said that you said you owed it to your men. Are you fascinated by the fact that there's extra terrestrial life or did you already know it?

Corso: I knew it. I 'm already pretty hardened to the fact.

Harris: When before 1947?

Corso : Oh no. years ago. my son told me one day.... My mother told me, poor woman that every time she saw a thunder and lightening storm, she used to pray because she had a crazy little son who when the lighting started, he had to run outside in the storm and had to watch lightening.She couldn't believe it. She said " what's the matter with you...you love lightening...it will kill you.. I said "it won't kill me". My son claimed one time me he saw me hit by lightning one day but I just kept walking.

Harris : So when you were young, you were 20, 30 years old, you already had a feeling there was something...

Corso: In fact, one time I had an experience one night... I described the inside of a UFO and I was the only one on it... but anyway.... my whole life is uncanny.. the positions I've held. I stood one day at Sperry Rand, McArthur was chairman of the boardMyself General Trudeau and Douglas Mc Arthur " the greatest soldier we ever had... I said What am I doing here? How did I get here? I don't belong here These two great men are asking my advice. I'm just a draftee from a old town in Pennsylvania. How is it that I'm here. Why? Why me? I don't know.

Harris: About the crash at Roswell..What happened with the gates you said were in this area?

Corso: the night that this crash happened. Braswell said that there was a lighting hit. Wilber Smith, the Canadian Physicist told me about the electrically charged electro-magnetic pillars... if a plane or ship in the water ..when hits those gates , the nuclear binding comes apart. When one of these big electro- magnetic pillars are moving and something hits then, they create wild fires and when something hits them , the electro-magnetic binding will come apart ..the gates are invisible and a human will disappear.

So that particular night in 1947 when all these storms happened.... there were three of them.....and they must have come through the gate and they must have hit. that One crashed .. and on one ship the time-sequence was off and that one ship became two one just a fraction of a second behind the other.... The other one appeared ten years later. I saw it...went out to it.

Harris: Ten years later...you saw the ship ?

Corso: I saw it right here in the desert near the Trinity site. I put my hand on it. It kept disappearing and coming back.

Harris: How did you know to go there? Is this mathematical that you knew to go there or intuitive?

Corso: I don't Know My trajectory...My radars..kept picking up. When I told my German scientist and Wilber Smith.....

Harris: So you were with someone else when you saw it..

Corso: No. I was alone. I flew over in an airplane first and then I had them send a big command car. I went across the desert in a command car by myself.... I didn't go near it .I was a little bit scared... I threw some cactus in there in the and it crushed it. It was solid .It was 110 in the sun and I put my hand on it ...it was as cool as ice.

Harris : It was real?

Corso: Wilber Smith said " you have experienced one of the truly great events that ever happened.... In a Gold mine, I met one of those things.. You know what message he left me...I put my gun back... He left me a message. I'll write it down for you " A NEW WORLD IF YOU CAN TAKE IT". . He said A NEW WORLD IF YOU CAN TAKE IT.

Harris: Was it" a gray?"

Corso: It had a glass helmet on, with band , with a jewel or sensor in the middle... reddish (**see drawing) He asked me to shut my radar down.Like a human, I asked him " what do you offer "? If I shut my radar down, ten minutes can seem like an eternity. How did that thing know that I was the only man that could give that order? I asked What do you have to offer.....

Here's what he told me!

A NEW WORLD IF YOU CAN TAKE IT.

Harris : Did you write this in your book? Did you tell anybody about this?

Corso: No.

Harris : Colonel you act like it's normal. It doesn't scare you at all?

Corso: I was in Combat .If you don't act normal you are in trouble, you go out of your mindThen do you know what I asked him when I pulled out my gun? Friend or Foe ! Guess what the answer was?

Harris: Neither

Corso; That's right... neither

A NEW WORLD IF YOU CAN TAKE IT. I asked Jacques Valle what that means. Me , the world or what ? Well' I walked out of the cave, I put my gun away, my knife and I walked down to the jeep and called Captain Williams, Range headquarters and said " This is the Colonel, Shut the radar off for ten minutes, I'm on my way. I repeat the order " shut the radar down" ! Then I looked at the image or whatever the hell it was standing at the entrance to the gold mine.....there was water there and everything.... I looked back, I saluted him and took off.

Harris : And he let you go? Sometimes they control you....

Corso : I can shut my mind off...to mental telepathy.. I used to do that during the war or what else? How do you get by ? Anyway later the Sergeant said" Colonel you'd better pick up the tape at E battery... there was something going 3,000 or 4,000 miles per hour on the screen. When I was in the air, I saw a green light flashing and I heard in my mind" I return your salute." Was I military and just imagining it or was that thing a soldier too?

Harris: Was that the only time you ever saw an alien entity?

Corso: No.
