

Subj: **WITNESS REPORT**
Date: 7/21/00 7:43:47 PM Eastern Daylight Time
From: [REDACTED]
To: DrSGreer [REDACTED]

1. Obtain [REDACTED] name, address, phone numbers, email and other data and record same.

[REDACTED]

2. Obtain brief educational and employment history relevant to the testimony (ie, government, military, intel., corporate)

At the time of occurrence, witness was a private serving in the Army National Guard at Fort Benning, Georgia, in 1977. Details of previous life and present employment pending. The witness was discharged from the military with a rank of private first class.

3. Record the details in summary form of the witness' testimony, providing salient information on date, location, position and involvement at the time of the UFO/ET event or project.

[REDACTED] originally joined the Army National Guard in San Diego, California in February 1977. During his training at Fort Leonard Wood, Missouri, he opted to transfer into the Regular Army. September 1977 found him in D (Delta) Company, 1st Battalion, 1st Infantry Regiment undergoing advanced infantry training.

On September 1, 1977, at 7:30 p.m., he and the other men were ordered out of our barracks to a mandatory formation. A captain was going to make a welcoming speech. The men stood in formation for what seemed like more than a half hour. One man called the witness's attention to a moving star in the sky.

For the next few weeks [REDACTED] and his fellow soldiers endured a nightmare of UFO sightings, teleportations, inexplicable madness, mysterious voices and mass abductions by alleged aliens.

[REDACTED] claims to have even witnessed an air battle between a UFO and an Army helicopter.

The witness has already spoken with Dr. Greer and is well aware that the events that he and others experienced may not be what they appeared to be at the time. He is willing to pursue the investigation from the viewpoint that the abductions may have been the result of an experiment performed upon the troops by the military.

Vasquez has also found a corroborating witness who can possibly link this incident to a 1977 measles outbreak at Ft. Benning that was very severe and life threatening.

4. Ascertain the witness' degree of cooperation : Is he / she willing to be interviewed under full identity? Under a disguise (we want to discourage this except in rare cases)?

The witness is totally committed and galvanized to support Disclosure in any way that he can. He will go on camera. Currently he is under management by a literary agent and a publisher who might exert some proprietary interests in controlling access. If this comes to pass, Vasquez will insist on participating in the Project. The agent and the publisher can be reached:

Agent:

[REDACTED]

Publisher:

[REDACTED]

5. Ask if he/she has corroborating witnesses to the event or project or corroborating documents and other materials.

There are 3 corroborating witnesses known to  Two will most likely come forward, the third wants nothing to do with any further involvement.

6. Always ask if the witness has other evidence, networks, or contacts to other witnesses which could be useful to the project (they may not offer this and so this should always be asked).

Above.

7. Write your own assessment of the value of the witness' testimony and credibility, and HOW the witness comes across (articulate, etc) .

The witness comes across as highly credible and committed to getting to the bottom of his experiences, and in pushing for investigations into the incident. He is articulate and open.

8. Let the witness know that we will be contacting him/her later to set up a date to conduct a full interview.
