

>Jerry, was a telekinetic and was involved in a research experiment at a

>highly secret MJ12 facility in San Diego, CA. This person wished to >come forward with information that he/she had gathered there but was >afraid. So he/she recruited [REDACTED] to disseminate the information.

Some

>of the information that [REDACTED] told me about was a technology called >EMIVS that was to be used for transportation purposes and dimensional

>travel through the "east and west" poles of the Earth. He also told me

>about a crystalline storage device that held video images from ancient

>times and many experiments with psychic powers of various types.

Also

>at this facility were alive ETI's that were working with MJ12.

>

>All of this, and several other things all seemed very "out there" to me

>at this time and I didn't believe it. Now however I have changed my >tune somewhat. [REDACTED] died within a year of graduation under

"strange

>circumstances". [REDACTED] was accepted to the CIA academy and for quite

>sometime this was all he could think about. Then one day near

>graduation he announced that he would not be attending the academy and

>instead wished to become a professional pilot instead. I was very >shocked by this. [REDACTED] went to pilot school somewhere in Northern >California and died soon after. He reportedly fell asleep at the wheel

>of his car and crashed into a ditch. This is just not like my old >friend at all. To this day I think that this was not an accident.

Of

>course I have no evidence to prove this.

>

>Well this is a strange story indeed... but I have heard stranger.

I'm

>not sure if any of this will ring any bells for you, but if it does

I am

>more than willing to help in any way that I can.

>

>Thank you for your time,
