FAX to Steven Greer, [REDACTED], September 29, 1994 Great weather here.

Dear Steven,

Very curious event last night here in my Denver house. I went to sleep about 1:am and "dreamed" that I was aboard a futuristic ship with some short guys when I perceived I was to be the subject for some surgery. Somehow I felt a violation about to occur and I spun and bolted out of the room and fell down into my bed wide-eyed awake and the clock said 3:30 am. I could not sleep the rest of the night no matter what I did. Well, I didnt think too much of this (another dream) until [REDACTED] told me tonight that he thought he saw a 'grey' in the house last night about 3 am. Lights were going on and off by themselves(?) and he felt a strong presence altho not threatning, indeed 'saw' the being in his minds eye asking him to come up to the ship! He declined and went to bed. In retrospect I am concerned that the surgery they proposed may have been for my benefit! The old fear reaction got to me, I'm sorry to say. Another deep lesson.

I left a message on your answer machine today but I want to be sure you do receive it. I cannot join the RMIT as I had hoped and expected. My money situation is terrible after England and I am working all the time to pay the debts and get clear. My royalties have been too low to carry me so I have to go out and exhibit, ^{AND SELL} which I am doing both this week and next and next, etc. There is just no way that I can take off time now. I expect I will be more free in a month, but, alas, not now. Shari is understandably upset as she was counting on me for the ride to Albq. so she might need to be flown.

All this happens at the right time, I know and I wish it was the right time for me now for this RMIT. My deep regrets...

But on a good note my efforts to help [REDACTED] with the connection with the General seems to have done some good and it looks like I will have the big house next summer so you and your family will have a secure place to stay. Any ideas about the dates you would be over? I am going to bring a small tour group before you and I need to firm up those dates somewhat soon. They will only be there for five days and I'm thinking around the 20th of July for them. Love to you all in North Carolina!
