Dear Steve,

I have some "old" documents, not new and I am not sure what you need or have at this point. [REDACTED] is sending me something thru snail-mail and I do have copies of letters that may or may not be of any value. I also have a few Air Force documents on base intrusions. I can photocopy these tonight and put them into the Fedex system if that is what you want.

PS: I just tape recorded some comments (w/o authorization) from [REDACTED]

on these mass sightings. He said the big triangles are busing in people and cargo. He thinks these are the ones that met with Ike, his father, and maybe [REDACTED] at Edwards AFB in 1954. He says they are migrating here and dropping people off (they look like us) in desolate locations and these people assimilate into our culture - they seemed to have speeded up their plans because their parent star is leaving the main sequence and their home planet is becoming too hot

(this he deciphered from encrypted microfilm his father left to him). This could be checked with others, but I do not feel right releasing any tapes at this time as I do not have permission and both [REDACTED] and Dan have been threatened. I can send you the threatening letter I received when I attempted to contact [REDACTED] (and it is not in his handwriting).
