>Dear Dr. Greer:

> I wanted to let you know that in 1975 I had a meeting with a man who
>claimed he was leader of a group, sponsored by the government, who were
>charged with recovering a downed alien craft near Roswell New Mexico.
>He further said that the same group went in after the death of Nickoli
>Tesla to recover his papers. At that time he claimed that a number of
>agencies within the government already had anti-gravity craft. This was
>all news to me in 1975 as I had never heard of such events. I met this
>fellow through a group called the World Symposium on Science and
>Engineering. If you would be interested in more info. please E Mail
>me.

>Sincerely,

>A Supporter
