Subject: JAL 123 Researcher/Witness testimony

Hello [REDACTED],

I am CC'ing M [REDACTED] into this mail.

He will be happy to explain his work to you.

Below I have also copied a previous mail from Mr. [REDACTED] describing his background a bit.

Obviously there are very deep implications which go far beyond the scope of the official story.

There is quite a lot of data, so any interview would best be kept to an overview-type basis I am guessing.

This incident is also of extreme importance on levels beyond just 3D, and relates to the world of esoteric magic and */Hifumi-shinji/* which is a now highly studied set of Shinto texts from the 1950s.

Of any potential witness testimony coming from Japan this one is first class indeed.

For now I imagine any video would be done in Japanese-language with English subtitles.

Hello [REDACTED]

How's everything going ? I hope everything's good to you!

I think the word "123"-*"Hifumi"* is one of the keywords to understand the globe-wide events which will happen coming future. From years long investigation, I'm convinced that the the JAL123 incident includes many signs that can introduce us to figure out the real world : shadow government on this planet, unknown advanced technology (EMP, ARV), hidden history and/or hidden relation between ETI and us, and the God (the existence that is called "God").

Do you know Hifumi-Shiniji (Hifumi Prophecy - I call it "Shinji") tells the day the secret of 12 tribes of Israel is revealed will have come ? From my research on the ancient Japanese history, not a few portion of Japanese people are descendants of Hebrew civilization. The current Japanese language was artificially made of the ancient Hebrew and local native language (Yamato-kotoba) around the year 700 AD.

The Hebrew immigration from Israel to Japanese islands is supposed to have started from around 1000 BC. The names of leaders of each immigration phase are recorded as gods in Japanese myth. For Example

God Amenominakanushi<-> Prophet Job
 God Izanagi<-> Prophet Isaiah
 God Nigihayahi<-> Zebedee (The father of Jhon)

That means the existence of the "East Islands (written in Isaiah)" was already known to the Judaism leaders before Jesus's birth. In the Bible, it is told that those immigrants were guided by the Lord (Yahweh and David - twins) like Moses guided Hebrew people with the instruction from the Lord.

The most important questions that I'm focusing on about this story are

- 1) who is/are "The Lord"?
- 2) What is the intention of The Lord concerning the immigration ?
- 3) What is the role of the two countries: Israel and Japan for current world?
- 4) How is the relation between "Hifumi-Shinji" and Old Testament?

After many mysterious, supernatural experience during the investigation including watching UFOs with you in Fukuoka, I believe these hidden histories must have relation with ETI and their plan on the earth being executed from very the ancient age. Therefore, I think the JAL123 incident also links to the origins of Japanese race through the word "123(Hifumi)" and its involvement with ETI.

I'm always feeling the eyes watching me, and sometimes I come across the agents from Vatican, Israel, KGB, NSA (those are identified from their faces and typical clothes they ware: they also want me to recognize they are watching me). If the JAL123 incident was occurred based on an ordinarily political and military conflicts among nations, those special agents wouldn't have interests so much in it. Assuming the incident is related with ETI and true history of this planet, we can understand why they have such a strong interest.

I believe revealment of the truth of JAL123 incident also has power to awake people all over the world to the truth like Dr. Greer revealed the UFO report on May, 2001.

=====

Thank you for your consideration.
