WITNESS REPORT ON [REDACTED]

1.. Obtain full name, address, phone numbers, email and other data and record same
[REDACTED] Email: [REDACTED], a remote area 250 miles from London.

2.. Obtain brief educational and employment history relevant to the testimony (ie, government, military, intel., corporate)

Police Sergeant for the County of [REDACTED] from 1974 –1988, when he retired. Police officer from 1963 –1974. Prior to 1963, he spent 3 years in a ground crew with the RAF.

3.. Record the details in summary form of the witness' testimony, providing salient information on date, location, position and involvement at the time of the UFO/ET event or project

From 1978-88 while a police Sergeant on night duty, he had over 60 close sightings and encounters with UFOs. Almost all of them involved other witnesses, usually other police officers. He has records with dates, place, names of witnesses, and descriptions for these events. He has photos of a few of the events.

First one: near [REDACTED] Yorkshire in 1978, while driving down a dark country lane with Police Constable [REDACTED]. Object above car, 100 feet away, moving less than 40 mph. Metal, glowing white, three spheres underneath below a hollow area; rotating colored lights outside a skirt at the bottom; dome on top with portholes. Soundless. Appeared to go down in a nearby wood. A third officer saw it.

2. Another incident: about 20 ft off the ground, 100 ft away, flew along side his car for 3 miles. So close he could see the seams in the metal. No sound except air displacement.

3. Object over car shaped like child's spinning top with hundreds of red, pulsing lights, no sound. Seen by wife. Has photo.

His car was never effected by the objects. No hostility or threat ever demonstrated; he saw them as beautiful.

He communicated to them by flashing a light. 1984: He did that and craft came and "stood" in front of him 75 feet above the ground, 50 feet in front of him, flashed the light in front of the craft amber to white a number of times. No sound except wind displacement. Occurred at 5 am, 2 other witnesses.

He believes that he was being singled out by the craft and eventually he began to receive telepathic messages from them.

Authorities above him in the police department told him not to go public as a police officer.

4.. Ascertain the witness' degree of cooperation : Is he / she willing to be interviewed under full identity? Under a disguise (we want to discourage this except in rare cases) ?

Willing to be interviewed on camera. Willing to do whatever he can to help us in other ways.

5.. Ask if he/she has corroborating witnesses to the event or project or corroborating documents and other materials

Has reports on the events and names of corroborating witnesses; some photos. Does not want to give out names without authorization of witnesses, and many are afraid to come forward.

6.. Always ask if the witness has other evidence, networks, or contacts to other witnesses which could be useful to the project (they may not offer this and so this should always be asked).

He cannot reveal the identity of his current sources and contacts. Since retiring, his work on this has gone way beyond that of seeing UFOs; for the last 3 years he has been working with a group of foreign diplomats, who are part of a control group which is meeting with aliens. These are peaceful aliens but are concerned about other races which are not. Through the diplomats, a meeting is being arranged for him with the aliens, although the US faction is opposing this. He says there is a part of the control group that believes the people have a right to know. He revealed more detail on this part of his story, but says that this cannot be talked about on camera. His life has been threatened by US agents on 2 occasions when he was in the US.

He is giving thought to whether there is anyone else he could suggest for the project.

7.. Write your own assessment of the value of the witness' testimony and credibility, and HOW the witness comes across (articulate, etc) .

Very articulate and seems credible. Value lies in the huge number of close sightings by a police Sergeant. [REDACTED] says that [REDACTED] is "completely sincere."
