Subject: Spreading South Pole Truth

Hello Dr. Greer

I am continuing my efforts to try and target folks that may be willing to discuss my experiences at the South Pole Station on their respective podcasts and such. I believe that Danica Patrick and her show may cross many different demographics, and is worthy of my efforts. Unfortunately I am not having any luck with any way to get a real message to her about my experiences. I can only imagine how many emails her team has to deal with.

Anyhow if you have a contact that I can make a better attempt with or if you can do more in this effort I would be thankful. Also, if you have any other ideas for me on how to better disseminate my info, I am all ears.

I have not seen your latest release yet, but am really looking forward to it. I would be happy to chat with the Cousins bros also.

Keep fighting the good fight,
