Subject: Re: AN IMPORTANT MESSAGE FROM DR. STEVEN GREER [REDACTED]

Yes, we can discuss that incident and another one which I do not recall as much detail. My number is [REDACTED]. I currently live in [REDACTED]. I am willing to testify about them in a SCIF and would consider publically talking about it in June. I think it is important enough and have followed your husband and his work and dedication and admire his courage to pursue the task of presenting this important information to humanity.

[REDACTED]

On 5/1/2023 17:52, [REDACTED]

Dear Mr. [REDACTED]

[REDACTED] Dr. Steven Greer, asked me to contact you regarding your UFO experience while in the military.

You mentioned you did not want to give your phone number until May, so I'm requesting it again.

[REDACTED] would like to talk to you about what you saw.

Would you be willing to come to DC to testify about that experience in a SCIF for the [REDACTED]?

Would you be willing to talk about it publicly at our DC Conference June 10 & 11 and our Press conference on June 12?

Thank you so much for being willing to share your account.

Sincerely

[REDACTED]

Greetings Dr. Greer,

I just finished viewing your interview with [REDACTED], and it inspired me to contact your organization again. I had previously contacted your organization and sent a document regarding one incident I experience back in the mid 1960s when I was in the USAF stationed at the [REDACTED] Radar Squadron, Mt. Laguna A.F.S. California. That was one of a few experiences I had with UFOs during my 4 years in the Air Force. I had my first experience when in grammar school in 1st grade.

After my military service I took advantage of the G.I. bill to attend UCLA and received a B.S. Degree in Engineering and later worked on various "Black" projects with a few of the defense Contractors while in the Los Angeles area. I feel comfortable now being able to discuss some of those experienced I had while working for various divisions of Hughes Aircraft, TRW, General Dynamics, JPL and a conversation I had with Mr. Northrup at the Dedication of the Santa Barbara Airport back in the 1990s.

You mentioned the TBs of data you have collected on the UFO / UAP subject and I assume that you have my document I sent previously in there someplace, but there are other stories I can share if you think they are interesting enough to include in your Archives.

I recently relocated to [REDACTED], and I am willing to meet you or one of your representative to determine if anything I know is of interest to your project.

[REDACTED]
