>FOR IMMEDIATE RELEASE

> New Witness Handles Roswell Wreckage at Air Force Base

>REDWOOD CITY, California, August 9, 2000 - It was the indignation of
 >government lies about Roswell that caused [REDACTED] to call detective
 >sergeant James Clarkson in 1997 to share her firsthand account of working
 >at Wright Patterson AFB.

>The highlights are breathtaking - handling unusual metal parts of the
 >flying saucer, taking dictation from Werner Von Braun, mentions of three
 >UFO crashes and a Top Secret Q clearance. Once she and many others were
 >asked to sign a "TOO HOT" memo as a result of a careless Master Sergeant
 >announcing he had just flown in from New Mexico with alien bodies and
 >wreckage. Her story continues to validate the contents of the Majestic
 >documents in both powerful overt and subtle ways.

>Besides her no-nonsense attitude with the Air Force claims that crash test
 >dummies accounted for the aliens at Roswell, six years after the fact,
 >[REDACTED] talks about her experience with the parachute group and the military
 >culture of Wright Patterson AFB from 1942 to 1952. [REDACTED] was the only known
 >surviving member of the parachute group of Wright Field. She passed away
 >on August 23, 1998, yet she left plenty of evidence behind.

>Available at www.majesticdocuments.com/witnesses is the complete
 >transcript and official documents of [REDACTED]

>To facilitate the education of the research community and public the
 >Witness section is broken into four parts. First, are those individuals
 >that had direct firsthand knowledge or experience with live or dead

Agod

>aliens, a crashed saucer(s), or associated wreckage. The second group of
>witnesses are those with direct experience that validates and supports the
>contents and authenticity of the Majestic-12 documents. The third group,
>are secondhand witnesses. The fourth group, are unverified potential
>witnesses that claim knowledge of the Majestic or related programs.

>
>Everyone, please be on the lookout for Majestic Personnel, those are
>individuals dead or alive, that are or would have had the position, power
>or skills to know the truth about the Secret US extraterrestrial programs.
>Humanity needs these witnesses and their evidence.

>
>Sincerely,

>
