Dr Greer,

I will assume from your lack of reply that you are not interested in involving [REDACTED] in your program...not a problem...although I would have appreciated at least a courteous reply. Nevertheless, I understand that you are enormously busy with the many other participants in your program...among other things.

We have many other avenues/opportunities to pursue that will assist us in bringing to light [REDACTED] evidence and experience...such as the International UFO Congress videotape of [REDACTED]'s presentation...which is now available. And, for the individuals who were unable to attend this presentation, it should help to answer many questions.

Perhaps our paths will one day cross, but if not, I just wanted to wish you best of luck in your efforts and I hope that our collective efforts will one day allow us all to finally know the "truth"...the WHOLE "truth".

Regards,

[REDACTED]
