Dying soldier admits seeing ET from Roswell UFO crash

[REDACTED]
[REDACTED]
Ex-Soldier [REDACTED], of North Carolina, is 80 years old, fighting cancer and wants to get a few things off his conscience.

One of the things he wants to come clean about is that he saw a live alien that survived the UFO crash in Roswell while he was serving his country.

In the summer of 1950, Paul was in the U.S. Army and stationed at Camp Wallace on the James River in Virginia. One day, for reasons he no longer remembers, he travelled to Camp Perry near Williamsburg, Virginia. While there, he recognized an MP guarding a bunker as they had served abroad together.

"I went down and asked him what he was guarding," says [REDACTED] "and he said I can't show you. So I kept talking to him and he said, 'All right, I'll give you a brief look at it.' So he opened the door." The door was opened and just 15 to 20 feet from him was an ET standing in a small cage with a base that was only three to four feet square. The ET was about 4 ½ feet tall and only wearing briefs.

What [REDACTED] remembers most clearly was the alien's skin color which he described as "an old orange-gray, dead-looking color." Despite the dull color, Paul could clearly see alien was alive and seemed to be aware of his presence. Though smaller and skinnier, Paul found the alien's features remarkably human. The shape of the head, ears, eyes, nose, chest, arms and legs were all not that different to those of a human being. According to Paul the alien was almost bald with just a little bit of hair. He also noticed the alien's fingers were longer than those of an Earthling.

After viewing the alien for several minutes, [REDACTED] left the bunker. He remebers well the guard saying "that was the fifth one from Roswell (UFO crash site)" and "they were taking it up north somewhere." Paul also explained that the alien was moved from Roswell, New Mexico to Fort Hood, Texas before arriving at Camp Perry, Virginia.

“At that time,” [REDACTED] adds, “Camp Perry was the most secret place that we had in America. I didn’t know much because I didn’t stay there long, but I know you had to have top secret (clearance) to get in.”

Subject: witness info

Hi [REDACTED]

You wanted me to remind you of a friend of [REDACTED] who is a potential witness. I believe his name is [REDACTED]

He served in the Korean war and got injured immediately. He wanted to continue his service so he was enlisted into an army intelligence program and was stationed at Camp Perry in Virginia. He was wondering around the base one day and saw a soldier guarding a hut. He outranked the soldier and insisted that he look inside. The armed soldier did not want to show him the inside of the hut, but finally did and this man saw a live E.T. in a cage being held captive there. He was told that it was a possible crash victim from Roswell and was going to be transferred to either Wright Patterson or a facility in Texas [REDACTED] (he couldn't remember the name of the Texas base). This man's job became such that he was someone that "silenced" a lot of people and he is very guilty of many of the things he had to do. This is a big motivator for him to come forward since he is getting older. He did tell this story to [REDACTED] MUFON group, so I think he would have no trouble being a willing witness.

As a side note, [REDACTED] called me the other day in a panic because the handwritten note that he showed you regarding the underground facility, etc. had been taken from his briefcase. I specifically remember seeing him put it back in there when we left the photo copy place. Everything else was there but that note. He had left the briefcase unlocked in his hotel room, so ??? I gave the copies to [REDACTED] and she is going to mail it to you. I had made an extra copy as well so we have back ups.

Anyway, it was great to see you and I am looking forward to NC. Love you lots!

[REDACTED]
