Witness info!

November 30, 1997

Steven M. Greer M.D.
CSETI Director

Dear Steven,

Greetings. In regards to doing a little leg work for CSETI, I tracked down the whereabouts of [REDACTED] and spoke with him by telephone on 11/25/97. His address is:

[REDACTED] will be back in the country on February 1, 1998 for a month and while he's away, someone will monitor his calls and messages. He said he would be happy to be a witness for CSETI, and wanted to relay the message that he admires greatly what you are doing and has a great amount of respect for you.

[REDACTED] is a cool guy and I had a good time talking to him. I'm still tracking down the pilot, [REDACTED] (Air Force) and a document that you might be interested in. I'll send this letter both as a paper copy and fax so you'll be sure to receive it. If you need any extra help, don't hesitate to call me.

Best regards,
