Dear [REDACTED]

I hope you are doing well and advancing in all your endeavors.

I wanted to enclose a draft of an article regarding the nature, scope and purposes of the covert group which handles the UFO/ET subject. Please feel free to comment as you see fit.

Do you know of any publisher or magazine of repute which would be willing to consider running this piece? If so, please let me know, and feel free to share with appropriate people as you see fit.

Also, I am working on a trilogy of books on the subject and wonder if you may know of anyone in the publishing world who would be open to considering this subject. Any help or advise which you may offer in this regard would be immensely appreciated by me.

Wishing you the best of all worlds,

Sincerely,

Steven M. Greer M.D.
Director of CSETI
