

The Disclosure Project

Dear Dr Greer:

I would first like to thank you for your book. A very welcome addition to my library.

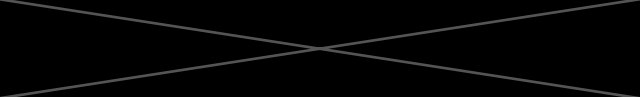

I would then like to apologize for not getting you the copy of the tape I promised when you where up here. My tape recorder died and I needed to get a new one. With work and the holidays I just did not get around to buying a new one. This tape is the debate between LtCol Whedon and Maj Kehoe on the Armstrong Circle Theater back in the 50's. Hope you will enjoy.

While stationed at Wright - Patterson AFB, Ohio I rented a room from Christine Whedon, the widow of Lt Col Whedon. She was in her 70's and needed help around her 5 acre plot , so I helped with many chores like cutting grass, and chopping wood. Being from England, she loved to have dinner parties and as her "adopted" son I was usually invited. Many of the people that came were civilians that had retired from Wright - Patterson years ago. Many I am sure worked closely with and knew Lt Col Whedon. One in particular was Dr Adolf Raum who, I am convinced, had personal knowledge of the Roswell affair. He is now deceased. I do not recall what his doctorate was in. He was at the first atomic bomb test and was personal friends with Dr Oppenheimer, the father of the A-bomb. One night I raised the Roswell issue to him as I asked about the little green men that were supposedly on ice at Wright - Patterson. I vividly recall his face turning white. It was extremely evident to me that he was very uncomfortable about me raising the topic. He did not provide many details, but he did say that the objects discovered were absolutely not weather balloons. He finished that particular conversation by saying in a very terse tone that I will not forget "We will not talk about this again Arnie. Understand?". I never again raised the topic.

The following I think you might find interesting also. As a youngster, maybe 3 or 4 years old, I had a dream in which I pictured myself in a silver disc of some sort above the Earth. Looking down, I could see the clouds and oceans. All in vivid color. I told my folks about this and their reply was that I had a nightmare. Fine, but where did I get the scenes in my head? Back in the early 40's, we did not have TV and books were seldom seen in our house. I lived with my grandparents and were of the old Norwegian school. Hardworking and they had little or no time for books. I rarely told others about this dream and then only close family members. I can still recall this dream to this day. Fast forward to the 70's. I was on an inspection trip to Davis Monthan AFB, AZ. Onenight I was having dinner at the Officers Club and was by myself. Suddenly, a young captain approaches me and asks "Colonel, might I join you?". The place was packed and I had a spare chair so I of course said yes. After eating, we were enjoying a drink when out of the blue he says "You have a vision that bothers you?" "Of course I said no because I had no "vision" that bothered me. He then said "Let me rephrase that. You have a dream that bothers you?". He then went on to describe my dream that I told about above. He then added that in a previous life I was a physicist with an advanced party coming to earth and we crashed landed on Earth. By the way, I was a physics/math major in college. He ended up by saying that some day I would remember more details about the inside of the craft and the uniform I was wearing. I think I told him that I thought he was weirder than I was.

Again, thanks for the book and I hope you enjoy the tape.

Sincerely,

March 1967 – Was USAF comms. Capt. @ 28th Air Div. Malmstrom AFB, MT.
Was also TS Control Officer. Saw message reporting silver disc near missile silo
observed missile by personnel on duty.

7-18-0 Left message with wife to return call.

7-18-0 2230 hrs. Talked with Arne on the subj. of the USAF message he saw
documenting a UFO hovering over a missile silo @ Malmstrom AFB in 1967.
The message received no special handling, nor was he given any special
instructions after viewing it.

He also noted that a ~~_____~~ was in a missile silo when a UFO deactivated
the missiles. He is sending Bob's e-mail address.

He also remembered another message noting the crash and retrieval of a UFO at
Spitzburgen, Norway. (date unknown).

Arne also noted that while serving as Director of Logistics at Wright-Patterson
AFB Dayton, OH he roomed with a Mrs. Christine Weeden whose husband, LTC
Spencer Weeden (deceased) had been the top UFO investigator at WPAFB.

In 1985 at one of Mrs. Weeden's many social parties, Arne talked with a Dr.
Adolph Raum (Swiss) (deceased) who was a top scientist at WPAFB. He
lightheartedly asked Dr. Raum, "What about those little green men you have on
ice at the base?" Dr. Raum's face turned ashen and he stated harshly, "We will
NOT talk on this subject again!"
