

Neil Daniels

Subj: **pilot interview**

Date: 10/17/00 2:51:46 PM Eastern Daylight Time

From: [REDACTED]
[REDACTED])

[REDACTED] told me about a former AF pilot Neil Daniels who then became a United airlines captain, who had an extraordinary sighting while flying for United that disabled his auto pilot, picked up on radar, etc. He's in the Bay Area and [REDACTED] is finding out if he'll be willing to be interviewed (seems likely). [REDACTED] is checking out the Disclosure material re his own interview and we'll be talking again tomorrow.
