Steven M. Greer, MD : Although not a member at present, I having been following CSETI and the organization for the past 5-6 years. and am familiar with most of the goals and information in moving forward with its projects. Having been extremely busy with my own work and family over the last 18 months, unfortunately I have not had much time to follow the continuing CSETI events. I was most pleased recently to read up on the continuing Disclosure Project and its details. My contact at this time is to find out with regards to witnesses, if you presently have the cooperation of the retired astronaut - Gordon Cooper. His current home is in Ventura, California, about 25 miles south of Santa Barbara, and I have close friends who within the last year have come to know him quite well. In recent readings about him, I understand he has been outspoken in the past and speaks openly regarding his experience about UFO's. If Gordon Cooper is not presently involved as part of your witness team, please feel free to make contact with me as I may be able to help by contacting him and possibly persuade him to come forward. Please advise. Thank you for your time in this matter.

A longtime layman ufo investigator/researcher
