Sure Tony, there is more too. I've witnessed other happenings. This one in Ramstein is the only one I've ever seen that was reported outside my experience. It closed a lot of "holes" for sure.

My phone is [REDACTED] in CharlotteNC. LONG distance for sure.

I'll look for you to call, but if it is cost prohibitive we can also use AIM (AOL Instant Messenger) for instant messaging, and voice calls. My username is Bullitt2020.

I am also a Mars researcher in my spare time (a by product of my experiences maybe) That doesn't exclude me as a nut does it ;o)

You might enjoy seeing some of the stuff I've found in the MOC images, matter of fact I'm sure you will. The URL is... [REDACTED] takes quite a while to load on dial-up, and my server is acting up a little the past couple days, but it is worth it.

I have recently found some Viking lander pictures that clearly show some UFO's spying on it, with other pictures taken a little later in which the UFO's have moved, or others have joined it. They aren't published online yet, if you would like to see, I will send them.
