RECOMMENDATIONS

We recommend that the Congressman pursue this matter as follows:

>By making directed inquiries to contacts and chairmen of the House and Senate Intelligence Committees;

>By inquiring directly to the various facilities, agencies and entities listed;

>By pursuing other contacts known to the Congressman who may be able to assist in identifying points of control for these operations;

>Should all such inquiries result in no definitive information on these projects, we recommend that the Congressman pursue this matter further by convening Congressional hearings whereby direct witnesses to these projects may testify. We believe more than one member of Congress can be located to co-sponsor such an inquiry.

Thank you for your assistance in this important matter.
