

February 7th, 1994

Dear [REDACTED]

What a delight to have a chance to talk to you again about so many subjects that interest us all so much! It makes me so happy to hear of Boutros' serious interest in the Indigenous Peoples. They make up a major part of the "third world" but so often are not "recognized" *until they do something drastic* - Perhaps the PROPHECIES are a valid way of being *heard*. Specially if the prophecy is gradually coming true and occurring day by day - it's pretty irrefutable evidence! What is amazing is that there are so many different prophecies saying so many similar things!

Although we spoke on the telephone about it, I wanted to say again how much Bootsie Galbraith and I look forward to sharing the information that Dr. Greer will be speaking about at the gathering which Bootsie has carefully arranged on Saturday, February 26th, at 3:00 PM at the home of [REDACTED]

Since we will all be coming to the same gathering, would you have time for lunch? If so, I would be delighted to arrange a small, informal lunch at the Colony Club which is right around the corner. [REDACTED] has said that she would come if she can - it is her daughter [REDACTED] birthday.

I have enclosed some material which Dr. Greer felt was important for you to have so as to have the opportunity to read a little about the project before the meeting on the 26th. He is so pleased that you will be able to attend.

Dr. Greer said that he had just missed meeting [REDACTED] on a number of occasions and is looking forward to the chance that she might be able to accompany you on the 26th.

I very much enjoyed our talk today and look forward to many more shared interests! What a pleasure it was to catch up.

Sincerely, [REDACTED]
