I'm a remote viewer trained by Morehouse, and I meditate.
I live in the middle of Plumas National Forest, CA.
There is a secret underground military base here (Mount Hough), so there are regular sightings, and in December of 2022, that mountain opened up and shined all the same lights as in Close Encounters of the 3rd Kind. I've seen hundreds of orbs, and more.
I want to start holding contacts for the public to educate them about your work, about the aliens being diplomatic, and that there are some who want this suppressed.
I downloaded your app.
What do you want me to do first?

Here is info on the base for reference:

Please let me know how I can help.

Check out #27. There are underground tunnels from the ranger station to the base under [REDACTED]
It deals with flying saucers and aliens, which is why we see so many.

It is nicknamed the orphanage. It is reported that they are cross breeding aliens with humans. No one has actual parents, thus it is called the orphanage.
