FILE NO. _____

JAN 16 1978

Dear Dr. Hynek, This is not an immature, high school paper. My name is [REDACTED] I am 14 years old and I attend Sacramento High School in Sacramento, Calif. I am intensely interested in Space Science, Astronomy and Unfamiliar Fascinating Occurrences-I've seen one (U.F.O.) along with three other witnesses; Mr. John D. Marshall, my step-father, a well respected minister in the community (who, at the time, did believe in life elsewhere, but not U.F.O.'s); my Mother, Mrs. Marjorie Marshall, a very intelligent lady who had the same opinion, and a COMPLETE STRANGER (at the time of the sighting, but my mother had the pleasure of meeting her in '77, the sighting was on the 18 or 19 of October of '76), an extremely intelligent woman who holds several degrees. What was really strange is the fact that they were talking about CLOSE ENCOUNTERS; My mother had'nt (and still has'nt) seen the movie yet, Ms. Rose Marie McDuff was telling her she had, and how much she enjoyed it; they started talking about U.F.O.'s and they discovered that they had seen the same one.

The U.F.O. was about the size of a baseball held at arms length, no exhaust, no noise. It had a small red light on top, the silhouette, dimly seen, was like a 'squashed bell' with a row of UNIFORMED LIGHTS on the bottom;

(that rotated) It was slow for a while, passed right over a friend's house (unbelievably, all this happened as we were coming from the grocery store-and across the street-literally-from our house!), slowed, came across the street, sped away very fast.

(I hope they weren't taking a survey on Earth's inhabitant's intelligence, because I always have believed in ET's and U.F.O.'s and this was my first Close Encounter of the First Kind, and I was running back and forth across the street, looking at the sky, looking VERY dumb.)

I rushed inside the house and called my friend, who called Sacramento Metropolitan Airport; the pilots said they saw a blip on the radar screen (he says they sounded drunk) they couldn't identify...

Anyway, I would like to ask you something very important.
First of all, I'm a very SINCERE individual and this is not an immature, High School prank, I have an excellent rapport with my teachers.
Second of all, I have excellent references. I'm in the MESA program at our School (Mathematics, Engineering and Science Achievement) that prepares students for jobs in those fields. When I graduate from college, I would like to be a scientist. To be a member of this program, you have to have an aptitude for Math and Science and be recommended either by your teacher or counselor. I would like to get a summer job at your CENTER FOR U.F.O. STUDIES, to learn how things are done and to do research, and to just plain help out. I'm too young now, but maybe I could visit now, with my parents, or go when I'm 16, for the summer. I WANT TO LEARN EVERYTHING I POSSIBLY CAN!!!

What was really strange is the fact that they were talking about
CLARE ENCOURAGEMENT. Another person had said that I was the same.
SINCERELY AND THANK YOU VERY MUCH.

P.S.: I will only come with my PARENTS
PERMISSION.

P.P.S.: PLEASE TELL WHETHER THERE
IS A CHANCE THAT U.F.O. WAS AN AIRCRAFT
(SECRET EXPERIMENT) OR NOT. EVEN IF IT
IS (I DON'T THINK SO) IT WOULD BE INTERESTING
TO FIND OUT WHAT THEY'RE DOING.
P.P.P.S. I MIGHT TAKE THE "PROFICIENCY TEST"
TO GO TO COLLEGE (AT 16) AND I'M THINKING
SERIOUSLY OF GOING TO NORTHWESTERN
SO I CAN WORK AT THE CENTER ALL THE
TIME. SASE ENCLOSED
