NICAP Subcommittee Florida Unit 3

Supplement Report: The Jean Stegall sighting of April 21, 1967

Subcommittee Investigators:

Date of Investigation: May 3, 1967

Place of Investigation: Mr. Robinson's apartment in Cape Canaveral.

This section supplements NICAP standard form, unit 3 code CB-70503. Each numbered part below provides the detailed description of the items for which there was insufficient space on the form.

9. The object was a solid elliptical disc with a definite dome on the upper surface. The surface was brightly colored as indicated in the accompanying sketches by co-chairman McClelland. Mrs. Stegall, on being shown the Lucci photographs, described her UFO as being just like it. The object had a definite aura at its base similar to that shown in the Lucci photographs, but the rest of the object was definitely sharply outlined. While being observed, the UFO tilted downward and then back up. While tilted downward it resembled an oval plate.
25. A Cessna type high wing monoplane was visible to Mrs. Stegall for the duration of the sighting. It appeared to pass directly beneath the UFO although this is probably more of an optical illusion since the UFO seemed to be further from the observer than the plane. The plane made a pass in front of and below the UFO, then turned and came back along the same flight path. It has so far been impossible to locate the source of this aircraft and its pilot for further confirmation of this sighting. It may be significant that Mrs. Stegall could hear the airplane but not the UFO.
29. See attached sketches that serve for both a location map and a description of the objects coloring.
30. Five miles north of this location is the southern entrance to Cape Kennedy Air Force Station. Six miles south of this location is Patrick Air Force Base. The Merritt Island private airport is nearby on Merritt Island to the ^{WEST} and south of the sighting area. In general there are many governmental and research facilities in the Brevard county area.

NOTE:
THE SPECTRAL DISPLAY WAS, ACCORDING TO THE
OBSERVER, DUE TO THE SUN'S LIGHT RAYS
STRIKING THE REFLECTIVE SURFACE OF THE UFO.

MRS. JEAN STEGALL'S ESTIMATE OF THE UFO SIZE IS THAT OF THE DIAMETER OF THE COCOA WATER TOWER BEING THE LENGTH OF THE OBLONG SHAPED UFO. OF COURSE, WITHOUT A KNOWN DISTANCE FROM MRS. STEGALL TO THE UFO, IT IS DIFFICULT TO SAY THE UFO WAS BEYOND THE TOWER (LOCATED 8 1/2 MILES FROM THE HOME OF MRS. STEGALL) OR TO THE FOREFRONT OF THE WATER TANK.
