Subject: FW: best wishes for the new YouTube video
To: Steve Greer <[REDACTED]>

Horace seems to have taken up a conversation with me.

He sent me an Easter note with a crop circle that was a beautiful cross.

AnywayI didn't send you the Easter note but have printed this out for his file.

ishes for the new YouTube video

Best wishes, [REDACTED] I just got back from several days in Canberra with my wife and her friends.

[REDACTED] sent me Steve's new YouTube video, I hope it is being received well worldwide?

I knew [REDACTED] and met him several times to discuss DNA research in private.

My wife and I had dinner with [REDACTED] in about 1986, and discussed a job at Cold Spring Harbour.

Those guys would not tolerate fake science of any kind. I also knew [REDACTED] mentor at Caltech, and worked for many years in the same lab with [REDACTED] who was [REDACTED]'s lab advisor (along with Sir [REDACTED]).

Let me please assure you that none of those great scientists would accept fraud or fakery of any kind.

With best wishes, [REDACTED] back in Sydney
