

- Said JK, "Since 1948, secret information concerning UFO activity involving the U.S. military has been contained in a computer center at Wright-Patterson AFB. At this base, a master computer file is maintained with duplicate support backup files secreted at other military installations." Said JK, "Get the complete 'dump file', both the master and the support backup files and you've got all the hidden UFO data."

Thus, substantive UFO data are not available through the Freedom of Information Act, nor on file at the National Archives in Washington, D.C.

COMMENT:

I have had a number of long talks with JK since July 1978, which was reported in Abstract #21 of my first paper. Some additional information he related concerning certain technical phases of his former work is not included here on his request. One of our chats revealed that he was stationed at Wright-Patterson AFB when Barry Goldwater had visited the base hoping to get permission from General Curtis Lemay to see the UFO evidence stored there, but was denied. Said JK, "This refusal caused quite a fiasco on the base."

While visiting the University in Dade City, Florida, for a lecture in April 1979, I was unable to meet JK, as arranged, however, I was surprised that following my talk, waiting to see me privately, was a former member of the elite "Blue Berets." I remembered JK had pointed out the functions of this covert service.

The next day, CAM, the ex-"Blue Beret," visited my daughter's home, and alone, we talked about the elite force, its make-up and functions — and some of his experiences in Vietnam behind enemy lines. Although he had never participated in a UFO crash/retrieval, he was aware that one of his fellow members had had the experience. Details were scanty, but CAM recalls that his friend referred to his participation in the recovery of a "big head" from an alien craft.

My last talk with JK was September 12, 1979, at which time he was doing well as proprietor of his own business. He reaffirmed as true all of his past claims.

CASE A-4

My informant is self-employed after serving a long career with the Air Force, retiring with the rank of Major. He was a pilot, as well as filling other special assignments. During the mid 1950's he served in an official capacity with the Ground Observers Corp (GOC), at which time I was asked by the Air Defense Command to screen and report UFO activity by code name, FOX TROT KILO 3-0 BLUE. During this active period, I was often in communication with the Major.

My informant called me in the winter of 1979 when he learned from Tom Shell, newsman for ABC-TV in Los Angeles, that I had been considered by that network to be interviewed for a major TV production featuring the UFO. My informant said he recommended me, having known of my former work in the GOC and as publisher of ORBIT in the late 1950's. During one of our several discussions of the UFO problem, when I cited some of the medical information relative to the recovered alien humanoids, he confided that in 1952 he had attended a high-level secret meeting at Wright-Patterson AFB and saw in an underground chamber one of the deceased alien bodies in deep-freeze preservation.

My informant recalls some of the physiological characteristics of the corpse from his yesteryear observation, but admits details are vague. He said the body, with its long arms positioned straight down alongside it, was about 4 feet tall. The head was large by human standards, and the skin on the face appeared smooth and gray. No bone structure was evident; eyes were open, no hair. The feet, he said, were like an orangutan.

My informant stated he had visited the Air Force's underground complex in Colorado Springs and that some of the UFO material that had been stored at the Wright-Patterson depository had been transferred there. He also admits having seen a portion of an Air Force movie which showed an alien craft imbedded in the sand of a desert-like region. Aware of this film I asked if he saw the portion showing the deceased bodies. (See Case A-9.) He said that at the time of the movie review, he was preoccupied with other business and missed seeing that portion.

My informant disclosed that he is aware of secret Air Force orders in the early 1950's which directed pilots on UFO intercept missions to shoot down or ram their target. He did not know of any successful mission of this kind which forced down or caused a UFO to crash. In one instance, he said, he was aware of an incident when a

UFO was surrounded by jets but by its highly evasive tactics, it escaped.

COMMENT:

In support of the Major's information concerning tactical operations involving the UFO and interceptors of the USAF, Mildred Bieseke, of Salt Lake City, Utah, who serves as Contributing Editor for the MUFON UFO Journal sent me the following item, typical of other reports known to me since the early 1950's, in her letter of October 2, 1979, quoted in part, as follows:

I heard you speak at the MUFON Symposium in Dayton last year and I am interested in your research on "Retrievals of the Third Kind"...I gave a talk at a local library last week and in the discussion period following, a fellow told me that when he was a gunner in the Air Force he had emptied his guns on a UFO and had taken pictures with his gun camera that clearly showed the shells exploding against the side of the craft. He said the camera was taken off the wing of his plane when it landed and the pictures developed. At 2 a.m., a couple of military policemen came and got him out of bed and took him to the base auditorium. They ran the 17 seconds of movie of the UFO over and over and questioned him, and two other crew members until 10 a.m. He was warned never to tell anyone what had happened....He said he had a wife and family, a good job, and a lot to lose. He seemed afraid of the C.I.A., and wouldn't even give me his name....

CASE A-5

Following my second lecture, April 6, 1978, before the Cincinnati Chapter of the World Wings Association, a gathering of 50 or more pilots, I was approached by a member of the association who knew of a "person at work" who, in turn, knew about crashed UFOs and occupants. As reported in Abstract #19 of my previous paper, I promptly got in touch.

On April 18, 1978, I talked with former Air Force Sergeant MS of the 97th Bomber Wing. He was prepared to relate information from a high-ranking Intelligence source relative to the retrieval of alien craft and humanoid occupants allegedly maintained at Wright-Patterson AFB. He also related a sobering story about a landing on an Air Force base, also from the same source. MS, while serving at Wright-Patterson AFB in 1977, made close acquaintance with Major General "T," who was assigned at Wright-Patterson for top security work in the Logistics Command. His rank and the nature of his work entitled him to a plane at his disposal at all times. He and the General's daughter (name known to me) were seriously lovelorn, and on that basis were frequently together. This allowed MS to be a guest at the General's home where he and the general had private chats.

From General "T," according to my informant, details were disclosed concerning a UFO that had crashed in the southwest region of the United States in 1957. At that time, General "T" was a Lt. Colonel. According to the General, radar had confirmed that an alien craft had crossed the skies over the United States at great speed. It was tracked to the point of its crash. The area, as in most cases, was "roped off," and a military unit summoned (with canines) for maximum security.

From the damaged craft, four humanoid bodies were recovered with great difficulty because of the inability to penetrate the craft's metal structure. The deceased bodies were found badly burned, some parts so severely that certain features were indistinguishable. However, the suits they wore — appearing silver — were not damaged by the obviously intense heat endured inside the craft. Said the General, "The suits were fused to the flesh."

According to the General, the four bodies, approximately 5 feet in height, were sent to Wright-Patterson AFB where he had seen them in a deep-freeze morgue, kept at approximately 120 degrees below zero for preservation. The only other anatomical feature described by General "T" was that the heads of the aliens were large by human standards. Facial features were erased by the heat factor.

The craft? The General related that scientists assigned to the task of dismantling it ran into difficulty. To get inside they concentrated on an area where a fissure or crack had resulted, probably from impact. Shipment to Wright-Patterson, he said, quoting the General, "Was by rail, using two military conveyance rocket cars, properly camouflaged and classified as 'rockets'."

On another occasion, MS as a guest of the General at his home, while alone, was shown a Top Secret document concerning a landed UFO. The incident occurred at Nellis AFB, Nevada, 1968, and MS expressed disbelief when he read the report. Stamped TOP SECRET, as he recalled, it read, in part: Large UFO hovered over Nellis AFB for three days, Three small alien craft were observed separating (or being ejected) from parent craft. One landed on the air base grounds. Sent to greet the landed craft was a Colonel with security detachment properly armed. There was no mention of an attempt to assault the craft. While waiting for a sign of intent, a
