

February 10th, 1995

Dear Dr. [REDACTED]

Thank you so much for your thoughtfulness! I was delighted to receive the T shirt. Perhaps it will remind *me* how to spell my name correctly! It is such an amusing and attractive idea! Also the papyrus painting, reminds me so much of my "Egyptian home"...

Today I am sending your check for \$100.00 for your membership to CSETI to the attention of Dr. Steven Greer with a covering letter. I will be wonderful to have your "on board".

The RMITs are fascinating and Steven is a genius at helping people to understand the importance of "communicating" interpersonally.

I am sending for your interest my "in house" report on a trip which we took to Mexico last December. I would appreciate it if you would keep the contents confidential as we will be contacting some of the people in the report later on in the Spring for their cooperation.

Again, it was a pleasure meeting you with Leia at the UN and I look forward to the time when we can discuss the information in the UN Resolution 33/426 openly and everyone at the UN is aware, knowledgeable, and informed. What a *unifying relief* that will be!

Sincerely,

cc:
