

[REDACTED]
4 January 1994

Dear Steve,

Here are the things that I did in response to the last request for assistance with an executive briefing that I mentioned to you on the phone:

1. Collected some slides that might be useful, in about four categories:
 - Alleged photos of objects that I feel are of actual photos
 - Alleged photos of objects that I think are of much lower probability of being untampered actual photos but nevertheless of interest
 - Cartoons that I have enjoyed showing, some of which are "dated" (from the 60s)
 - My word viewgraphs of the past that conveyed a summary of my ideas at the time
2. Wrote a summary of what I would say to were I to be given the chance;
3. Offered some of the pitfalls that might be encountered.

The remarks on the following pages are similar to, but slightly modified from, the contribution I made to him. Since one cannot get at the really good photos of the wreckage and occupants, and numerous other photos obtained by the Government over the years, the best course is to go with the best unclassified photos.

I think that Sunday morning might work. Give me a call.

More later. Call me for information [REDACTED] Fax or phone) or [REDACTED]
(answering machine too.)

Thanks for calling, and I hope this give you some ideas for your presentations.
