

“How to Avoid Winning the Battle and Losing the War”

By Dr. Steven Greer January 7, 2026

It appears that official UAP disclosure in some form will be taking place in the relatively near future. Assuming this is the case, the biggest problem facing the world is the information psychological warfare of those who control and have access to the organs of communication to the public.

As we have documented for over 30 years in all media, legacy as well as digital and podcasts, once they reach a certain audience size, they are waived off, threatened or otherwise induced to only feature disinformation operatives in the coverage of the subject. They universally present it as an “alien threat” and also cover up the human technology behind many of the frightening “alien events”.

Since these operatives, which will be listed below, are actually working on behalf of a *trans-national criminal organization* - TNCO, they are part of a criminal conspiracy and should be treated as such by federal law enforcement.

If these individuals and their lackeys in the media are not checked, disclosure will happen, but it will be worse than the era of secrecy, because it will pivot the world on a war footing and panic so that the totalitarian global interest can consolidate power. This has been the objective for at least 70 years of this corrupt organization.

Many people will view this as social and political disagreements in the UFO community - they would be dead wrong. The good people who have and know the truth, are not allowed in the larger media forums to tell the truth, due to the corrupting influence of this TNCO across all forms of media.

While taking on that beast is very difficult, investigating and targeting the tip of the spear mouthpieces are not. Over the past 35 years, I have seen different players come and go who are NOCs (non-official covers) for this corrupt enterprise. They are afforded prominent and full access to mainstream media

and in the digital age, the major podcasts and internet sites. The deck is catastrophically stacked against the truth and in favor of the false narrative.

Running to ground the mouthpieces for this treasonous TNCO is actually of equal importance to the direct whistleblowers that we are pursuing. If the false narrative and negative spin prevails it won't matter that the UAP subject is disclosed, because it will be disclosed in a fashion that serves the long-term agenda of this corrupt deep state TNCO.

The following figures, who generally suck up all the oxygen in the room on the UFO subject, are without a doubt corrupt NOCs working on behalf of this TNCO:

- [illegible]

The opening into this group resides in various angles of attack.

- Many were involved with [REDACTED] [REDACTED] which was a scheme to defraud the United States government full stop. The documents in our possession and the gaslighting conclusions they reach can prove this.
- [REDACTED] and [REDACTED] and perhaps others have repeatedly, based on direct conversations with members of Congress, falsely stated that I am a Russian foreign agent or Mossad foreign agent in an attempt to divert attention away from information the substantial material and whistleblowers we have and to corrupt federal investigations. In speaking to an attorney about this, I have been assured that these are serious felonies; each occurrence was aimed at thwarting legitimate constitutional inquiries by making false serious claims that I was a foreign operative.
- We also know from recent conversations from a confidential informant, that [REDACTED] and perhaps others have been involved in criminal, fraudulent schemes financially and we are in the process of debriefing the principle of one of those companies that has been victimized.

What all this means is those that have been hand-picked and given full access to media, who are these corrupt individuals, need to be investigated and stopped. If this does not happen, there will be an overwhelming chorus and drumbeat towards conflict, war and an external threat from space, the consequences of which are dire and could lead to the termination of human civilization.

Therefore, I think the investigation needs to be widened into the public sphere of those who are operating on behalf of this criminal organization, while at the same time pursuing covert operatives and whistleblowers as we have been.

We should remember that Al Capone was taken down and put in prison for tax violations, not for the numerous gang-style murders and crimes he had committed. A criminal forensic accountant needs to look at their finances and

operations and business dealings and will no doubt find that there is an ongoing pattern of a corrupt organization.

The team should not be persuaded that this is simply a public dispute and politics in Ufology. This organization and their operatives are the tip of the spear of directing disclosure in a fashion that would be catastrophic for our Nation, for the world and humanity and therefore should be taken very seriously.

I will point out that this game has been played since the 1950s at least. It is how the coverup has successfully been maintained. Remember that the President, members of Congress, U.S. attorneys and judges are all political animals and are slaves to public opinion. If we lose the PR and information war, then we will have lost the entire war no matter how successful we fought in the battle for disclosure.

I believe that if the low hanging fruit, people like [REDACTED] and a few others would be properly investigated and interrogated in order to avoid criminal prosecution they will trade up and sing like a bird. This should begin immediately.

On a parallel track, information provided to the Executive Branch, POTUS Office of the Director of National Intelligence (ODNI), and key members of Congress needs to increasingly point out by evidence obtained, the nefarious motives of these people. Unfortunately, due to secrecy and extreme compartmentalization, these key political leaders who are constitutionally in charge of the U.S. government, have a paucity of information and perspective and are sitting ducks for this disinformation narrative of threat and the need for war and conflict with non-human intelligence (NHI). Therefore, a similar effort aimed at properly educating these figures with proof that these individuals are in fact operating criminally and nefariously, would neutralize their message. This needs to be done in the next few months if we have any chance of diverting the false disclosure that Wernher Von Braun warned about in 1974.

From a historical perspective, there is proof that the same tactic has been used to instigate or expand conflict in the past. In Vietnam, the Gulf of Tonkin incident was staged or exaggerated for psychological warfare purposes so that there would be a huge public outcry from the American people, which led to President Johnson feeling he had no choice but to greatly expand the Vietnam war, which lead to that quagmire and debacle.

Similarly, 911 was allowed to happen and orchestrated by Vice President Dick Cheney and his associates, and the ensuing outrage led to wars throughout the Middle East for over 20 years resulting in countless deaths and trillions of dollars lost. Hereto the American people, their Representatives and President were manipulated into actions that were deleterious to the world and in the long-term to our National Security by the same clique of TNCO operatives.

And then there was Covid, which was a biowarfare weapon designed to spread like wildfire and prompt and experiment to see if these totalitarian global interests centered in the U.S., China and elsewhere, could seize control through fear of public policy, basic human rights and freedoms and the issuing of irrational edicts from governments which actually only worsened the pandemic.

It was their beta testing of the levers of control needed to control the populace through fear and emergency orders and powers in preparation for the false disclosure which is imminent. The conveyance to the public of an “alien threat” would induce global panic and chaos and emergency suspension of human rights and freedoms, that would make Covid look like nothing. A friend of the President has admitted to me that he realizes he was played by those interests in the policies of 2020 with the onset of the Covid pandemic. Being deceived again on the UAP/NHI issue would be 1000 times worse.
