

Office Memorandum • UNITED STATES GOVERNMENT

TO : DIRECTOR, FBI

DATE: March 22, 1950

FROM : GUY HOTTEL, SAC, WASHINGTON

SUBJECT: FLYING SAUCERS
INFORMATION CONCERNING

6 Flying Discs or Flying Saucers

The following information was furnished to SA [redacted] by [redacted]

An investigator for the Air Force stated that three so-called flying saucers had been recovered in New Mexico. They were described as being circular in shape with raised centers, approximately 50 feet in diameter. Each one was occupied by three bodies of human shape but only 3 feet tall, dressed in metallic cloth of a very fine texture. Each body was bandaged in a manner similar to the blackout suits used by speed flyers and test pilots.

According to Mr. [redacted] informant, the saucers were found in New Mexico due to the fact that the Government has a very high-powered radar set up in that area and it is believed the radar interferes with the controlling mechanism of the saucers.

No further evaluation was attempted by SA [redacted] concerning the above.
