Hi [REDACTED]
Here is the link to my sighting in Arkansas. The date I am not sure of, it was the summer of 1976. I am sure of the day of the Wow! Signal, August 15 1977. I have decoded it. They were trying to communicate the word "equus". It is the Latin word for "horse". At the time of the signal I was living in a barracks at RAF Croughton, United Kingdom. I believe RAF Croughton is closed now. If you draw a line on a good map from RAF Croughton to Stonehenge and bisect that line, you will find an ancient monument called White Horse Hill in Wiltshire. I can't give you much more information as it could jeopardize my security and the safety of others possibly involved in this case. I have studied your website in more detail and approve of Dr. Greers approach to this subject.
Yours, [REDACTED]

National UFO Reporting Center Sighting Report
Occurred : 6/21/1976 01:30 (Entered as : 6/21/76 01:30)
Reported : 10/12/1999 22:30
Posted : 10/19/1999
Location : Little Rock, Southwest, AR
Shape : Sphere
Flourescent ball approximately 20 feet in diameter. Followed automobile at treetop level. Was seen by police.

A light was seen in the skies around central Arkansas, particularly South West Little Rock. When at high altitude this light flashed brightly and changed azimuth instantaneously. This occurred quite frequently in the spring and summer of 1976. One particular night a large ball of light appeared over what is now the Arkansas State Police Headquarters. It was stationary and started to follow the automobile we were travelling in, due south on Geyer Springs Road. When the vehicle observers were in stopped for traffic light the UFO stopped too. A Little Rock Police patrol car travelling in the north bound direction stopped for the traffic light too. The officer seemed to be talking on his radio and reporting about the UFO as he was crouching under his windshield.
