

Here's some more regarding what happens to the pilot/crew of the helicopter when operating in the GEP mode.

Same procedure on the mouse, folks. Ready?

What's happening to the pilot(s)/crew inside such a vehicle?? As a pilot myself, I find it hard to conceive of the physiological possibility of someone going through this type of acceleration. Even if we've made extraordinary aeronautical breakthroughs, the limitations of the human body are still there. When the antigravity mode is in effect, what happens to the pilot/crew? What do we really *know* and what is shrouded in assumption/conjecture? BTW, I'd love to talk shop with one of those pilots! Comments?

You will have to forget all concepts of what you perceive as a pilot. I had to. When in the envelope in GEP mode you are at zero gravity and regardless of speed or direction there is no inertia, no feeling of movement whatsoever.

> "INTERVIEW WITH A (RET.) OFFICER"

I interviewed a man who was in the military and is now retired. I'm keeping his identity anonymous because he hasn't yet given me his new email address and until then he doesn't want to be identified, as he was going to change locations.

Same drill as before with the mouse.

This really blew me away, and I'm sure it will do the same to you.

Dear (IDENTITY WITHHELD),

Since you admit there are underground bases, can I ask you a couple of questions?

Were extraterrestrials found in the crash near Roswell in 1947?

Ans. Yes

Has the U.S. government captured a craft of extraterrestrial origin?

Ans. Yes.....157 of them since 1945

Are living extraterrestrial biological entities being kept at any governmental insitution and/or installation?

Ans. Yes

If so, where?

Ans. Dreamland, Dulce, Star Wars City, Pine Bluff, NY, Wright AFB, Teller AF Base, Bentwaters AF Base, England, Pine Ridge, Australia. Spain has 8 Ummo's working with them.

Does the U.S. government at the highest levels (military and/or civilian) know about the existence of extraterrestrials?

Ans. Yes

Is there a governmental conspiracy to cover up the existence of extraterrestrials?

Ans. Yes

If so, is this secrecy shared by the governments of other countries?

Ans. Yes

Is there an extraterrestrial confederation or organization of some form that is trying to intervene in Earth's history, be it climatic or geopolitical?

Ans. Yes

Was the "Philadelphia Experiment" or any of its successors, a success in any terms?

Ans. Yes....What they do not tell you about the Stealth is that they can bend light and become invisible. The reason only one was sent at a time to Bagdad in the Gulf war.....We have no way yet to detect them ourselves, so they were afraid of running into each other.

I guess that's it for now,

(IDENTITY WITHHELD).

Thanks for at least taking the time to look these over, and thanks even more if you answer any of them for attribution. If you want to answer them "off the record" via private email, or whatever, I'll be more than happy to accept them as being from a "reliable retired military source".

(End of Interview.)
