Dear Art,

I would be happy to meet with you to discuss this. BTW I was told the meeting was in 1954 not 1955?

My email is : [REDACTED]@m.

Also, [REDACTED] is just doing her job- many people say they want to talk with me but I am very busy and she has been asked to get some info prior to passing the request on. Certainly you understand that I cannot personally respond the the thousands of emails and requests we get and that some type of vetting is needed.

Best regards,

Steven M. Greer MD

Steve, would you be interested in meeting with this guy? He's going to the X conference before going to Cville. He might be speaking there. I recently saw him on a UFO documentary about Roswell.
I did ask him for more information as to why he wanted to meet with you - which is why he's complaining - but at least he has now given more details.

Debbie

DR. Greer

I saw you when you spoke at Southern Ore. State University a few years ago. As you may recall, the presentation was sponsored by the Rogue Valley Metaphysical Center. I was with a handicapped gentleman in a motorized cart, and he had a mechanical emergency (flat tire) and I was unable to meet you after your very nice talk.

Now, what I'm going to say here is not very pleasant, but I have been trying to get hold of you for about 3 years. I have sent e-mails, a personal letter to you in Crozet. A telephone contact with one of your assistants (I believe Debbie) who wanted to know why I needed to communicate with you. **Did it ever occur to you that anyone in your organization that there may be someone who has information that is confidential and may not want to "filter" this through several other parties in your rather complicated screening chain?**

As I said in my last communication, I will be in Crozet, VA between Apr. 21 and 25. I may have available some time on April 24th and would like an hour of your time (day or evening) to tell you about an ex-airman at Holloman AFB (1955) who said Eisenhower visited that base on a secret mission. He saw Ike's plane, but was on duty and could not attend any of the several meetings where Ike spoke. He also said he overheard conversations between superior officers about Ike going aboard a UFO that morning in front of Air Force One. I have located two additional corroborating witnesses and a great deal of other information indicating that this event very well could have taken place.

If you receive this, I would appreciate some kind of reply. I will not be attempting any more communication. Please see below.

May I suggest a meeting at the Hardware Store (eatery) or a place of your choice in or near Charlottesville where I will be visiting that week. If you are so inclined, I would appreciate some kind of answer.

Thank you for your time.
