Hello Mr. [REDACTED]. Greer,

Forensic artist, private detective, and UFO researcher [REDACTED]d
here.

I hope Dr. Greer is feeling well and that his health is good.

I'm sorry my father ([REDACTED] at UAB) was not more
forthcoming. I'm actually inclined to believe that he never made direct
contact with or associations with alien technologies during his years
with the CIA, Rockwell's Strategic Systems Division, or the JASON
COMMITTEE.

He had a heart attack two weeks after Dr. Greer's phone call to elicit
information from his background. He is recovering.

My current contact information is:

W [REDACTED]
Forensic Artist/Concept Designer/Private Investigator

I've been consulting with [REDACTED] at NIDS and [REDACTED] in
Austin. I have a number of projects that CSETI might be interested in
including an Almanac of modern UFO cases cross referenced to
technological and intelligence community history--Please see-->
[http://\[REDACTED\].tm](http://[REDACTED].tm)

Please forward a copy of this to Dr. Greer.

Thanks,

[REDACTED]
