[REDACTED]

Dear Steven,

I wanted you to be one of the first to have a copy of Simeon's OPENING MINDS. Of course, we welcome your feedback. This is our first effort at telling some of these interesting stories and hypothesizing the connections. I'm sure it will all make sense to you and we hope there is also a general audience who will benefit. There will be more volumes to follow.

The Discovery Channel will tape us soon, for a segment to coincide with the opening of SIGNS, the crop circle movie with Mel Gibson, (which might be disappointing). And 20/20 wants to do a segment update. When the media drives the media, someone has to tell the truth within the theater.

I am working on my book, SECRET ART, which Simeon may publish. So much color because of photographs raises a red flag with mainstream publishers. Simeon has done a great job being very thorough as a publisher and depending on the success of this book, he may want to bring other authors on board.

I sure hope to join you in the field someday. I am healing well, but with the physical therapy regimen after the shoulder surgery (supraspinatus tear), I cannot, alas, join you in Crestone. But somewhere down the line, for sure. Hope you are well and happy.

Please give my love to all your family.

p.s. Look at my new web site, www.cropcircles.org The reports section has new material that cause some croppie fundamentalists to wish for my death. At least this is the slant of their hate mail. Oh, well....
