Hello,

my name is [REDACTED]
It is my duty to transport message to Acclimate
the people to extraterrestrial reality.

This is an very important announcement.
Please studie it careful.

"National Security Intelligence source discloses
details about the existence of a privatized club of elite
plutocrats who had total access to ET tech, information,
craft and corpses

What follows are perceptive details about this Club,
provided by a highly-reliable veteran Intelligence insider,
who has come forth to comment on recent developments.

"It was called the 'New Age Club', this extremely
highly-place intelligence careerist revealed. He confirmed
that its members had more access and say in UFO matters
than the National Security Agency (NSA) does!

Its members included: [REDACTED] (ubiquitous proxy
for [REDACTED] prominent player in the Bilderberg
Council, Council on Foreign Relations and the Trilateral
Commission); his older brother Laurance Rockefeller (who
has quietly funded various UFO investigations); Howard
Hughes (the reclusive billionaire who provided fronts for
many CIA projects through his many companies); a top
official in the RCA corporation; former CIA Deputy Director
and Chief of Counter-Intelligence, [REDACTED];
and included in some of its activities such notables as
60's television mega-star [REDACTED] (to whom they
once showed extraterrestrial corpses at an Air Force Base
in Florida.)

It was [REDACTED] and RCA who built the underwater UFO/ET
laboratory in the Caribbean north of Abaco Island, Bahamas
with funding assistance from [REDACTED]. At this
subterranean facility, ET technology was studied without
danger of prying eyes..

The New Age Club was a private, rich-man's "MJ-12", with
all the access to, and influence with, UFO secrets, but
without the tedious policy decision-making and
data analyzing chores that fell to the government's UFO
policy decision group, the Special Studies Group
subcommittee of the National Security Council.

"This New Age Club was formed at the lounge of the Four
Seasons Hotel in Washington, DC," my Intelligence informant

revealed. "It was [REDACTED] 1969-74] who began this little private above-the-law enterprise."

Recently the "Club was dismantled by current CIA Director [REDACTED] because their budget became known and who was at the top of the New Age Club," my informant stated.

Also, [REDACTED] x, a person identifying himself as a member of the New Age Club, has gone public about the existence of the (now-dismantled) Club. He claims to have worked side by side with many alien races for 25 years as director of the New Age Club. Now that the Club has been dismantled, one of its own is finally preparing to share some information about its activities over the last 30-odd years. Yet Mr. [REDACTED] (my informant believes that is a pseudonym) has already spread one piece of disinformation: claiming that the Club started in 1929, when it actually began during Nixon's term of office [69-74].

Yet, the informant hints that the Club big-shots did not have quite as complete access to the extraterrestrials as the U.S. and UN genuine governmental policy groups did. For example, the New Age Club members did not have access to the ET observational base in French Polynesia, set up for the extraterrestrial visitors by the leadership of the Bilderberg Council in the 1950s. He also suggests that what coming forward now may well be another piece of the government's Public Acclimation Program preparing for formal announcement of ET presence.
