Thank you for your comment. I am an Australian researcher and i am very well acquainted with the work of all concerned with disclosure. I will be adding more videos to YOUTUBE and i will be constructing my commentary to try and reach people on an emotional level to stimulate and actively encourage action.

I have been researching since 1972 and greatly admire the highly credible disclosure group witness and others fighting for the truth.

I have known since 1972 that UFOs are real. In the summer of that year i was an employee at Pine Gap working for The Joint Defence Space Research Facility located near Alice Springs in the Northern Territory of Australia.

One evening a UFO A BRILLIANT GOLDEN RED COLOUR HOVERED SOME HUNDREDS OF FEET ABOVE THE BASE FOR ABOUT TWENTY MINUTES. SIZE VERY HARD TO ESTIMATE BUT AT LEAST 30 FEET I THINK. Before accelerating vertically in to space so fast it was gone in about 2 or 3 seconds. About two dozen people witnessed the event including my elder brother who was also an employee. You know what came next: Nothing happened no one was to discuss it with anyone and subtle but forceful warnings were given. One American witness who was a very religious man suffered some ongoing trauma afterwards because his belief system was challenged.

I saw a second UFO on 29TH OF November 2006 Vastly different from the first. It was black triangular and huge. It had a pulsing white light at each point with a large reddish amber light of sorts in the centre underbelly. Totally silent it flew over my home at midnight very low. I was so dumbfounded and mesmerised as it blocked out the stars and i thought of going in to my house to find my camera but i just could not stop watching it.

I dont bother discussing these events with others normally as the response of the uninformed only annoys me.

I am a well educated person with an I.Q. of 132 and yet i have been ridiculed by others whose greatest concern in life is whats on tv etc. Our Earth is being destroyed by pollution and millions are starving and living in abject poverty while elites turn a blind eye earning trillions. Dr Greer one of the great thinkers and men of our time is trying to help the human race our planet and see us evolve enjoying a future world that has hope for generations to come. I wish him and all of the witnesses every success. By the way i am planning a video on Dr. Greer i will do my best honour his efforts for humanity.

I forgot to hit 'reply all'

I haven't seen the video that [REDACTED] is referring to, but I know Steve wrote a paper in the mid-90s

Hi,

[REDACTED]:

[REDACTED]

A blanket amnesty has allowed South Africa to move on after Apartheid. Perhaps this will alleviate the fears of people in power. As anybody heard of this video clip before?
